Revision of Full-Year Financial Results Forecast

The full-year financial results forecast has been revised to reflect lower existing-store sales due to price increases and higher SG&A expenses.

Millions of yen

	Fiscal year ended February 28, 2026 Results (A)		Fiscal year ending February 28, 2027 Previous Forecast		Fiscal year ending February 28, 2027 Revised Forecast (B)		Year-on-year (YoY) (B-A)	
	Amount	% of sales	Amount	% of sales	Amount	% of sales	Change	% change
Net sales	17,895	-	20,350	-	19,450	-	+1,555	+8.7%
EBITDA*	1,772	9.9%	2,030	10.0%	910	4.7%	(862)	(48.6)%
Operating profit	1,301	7.3%	1,410	6.9%	430	2.2%	(871)	(67.0)%
Ordinary profit	1,211	6.8%	1,280	6.3%	280	1.4%	(931)	(76.9)%
Profit	625	3.5%	840	4.2%	10	0.1%	(615)	(98.4)%

* EBITDA has been included in the financial results forecast since the fiscal year ended February 28, 2026.
* EBITDA is calculated as operating profit + depreciation and amortization (depreciation, amortization of goodwill) + M&A acquisition-related expenses.

Results Overview: Six Months Ended August 31, 2026

Net sales increased year-on-year, but costs associated with promoting each strategy rose, resulting in lower profit at each level.

Net sales	Operating profit	Profit	Stores
¥9,518 million	¥217 million	¥101 million	220 stores
	Operating margin 2.3%	Profit margin 1.1%	
YoY	YoY	YoY	vs. February 28, 2026
+7.9%	(72.9)%	(79.6)%	+21 stores

Statement of Income for the Six Months Ended August 31, 2026 (YoY)

Net sales increased year-on-year. Profit declined due to a lower gross margin from customer-attraction measures and higher SG&A expenses due to fewer existing-store customers and upfront investment.

Millions of yen

	Six months ended August 31, 2025 Results		Six months ended August 31, 2026 Results		YoY		Full-Year Plan	
	Amount	% of sales	Amount	% of sales	Change	% change	Plan	Progress

Equity-to-asset ratio	44.5%	37.4%	–

Quarterly Trends in Net Sales and Operating Profit

Net sales remained solid on a quarterly basis. Meanwhile, operating profit declined, mainly due to the vigorous promotion of growth initiatives and store openings during the three months ended August 31, 2026.

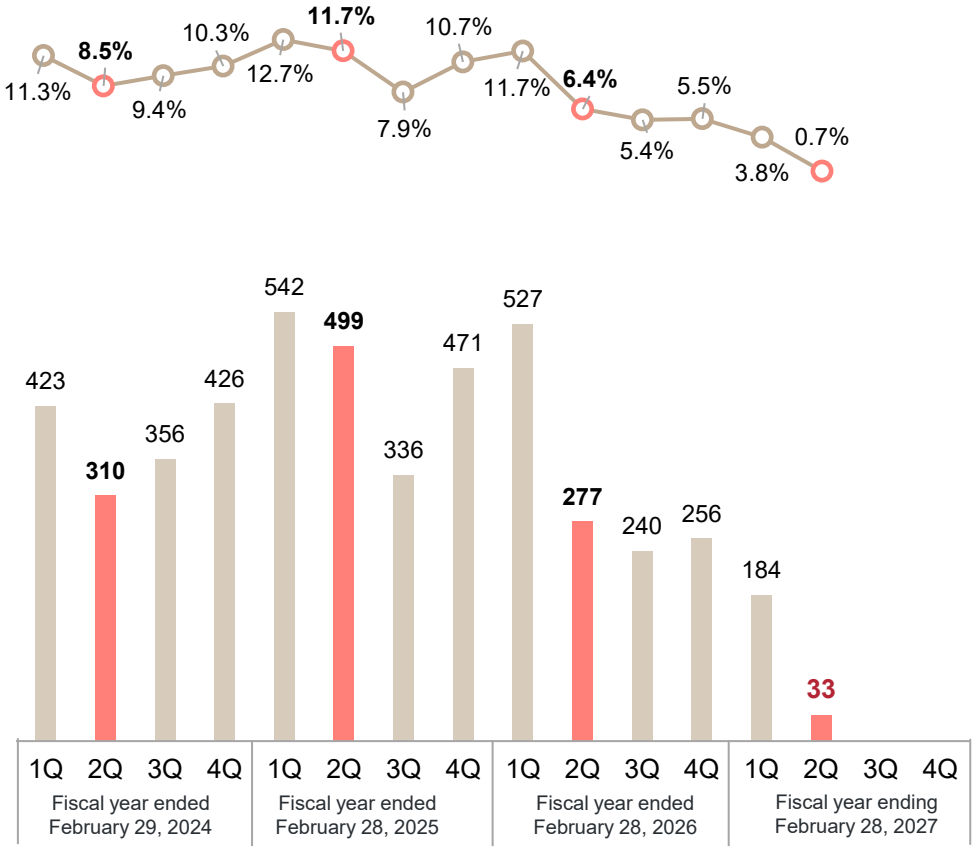

Net sales

Millions of yen

Operating profit / Operating margin

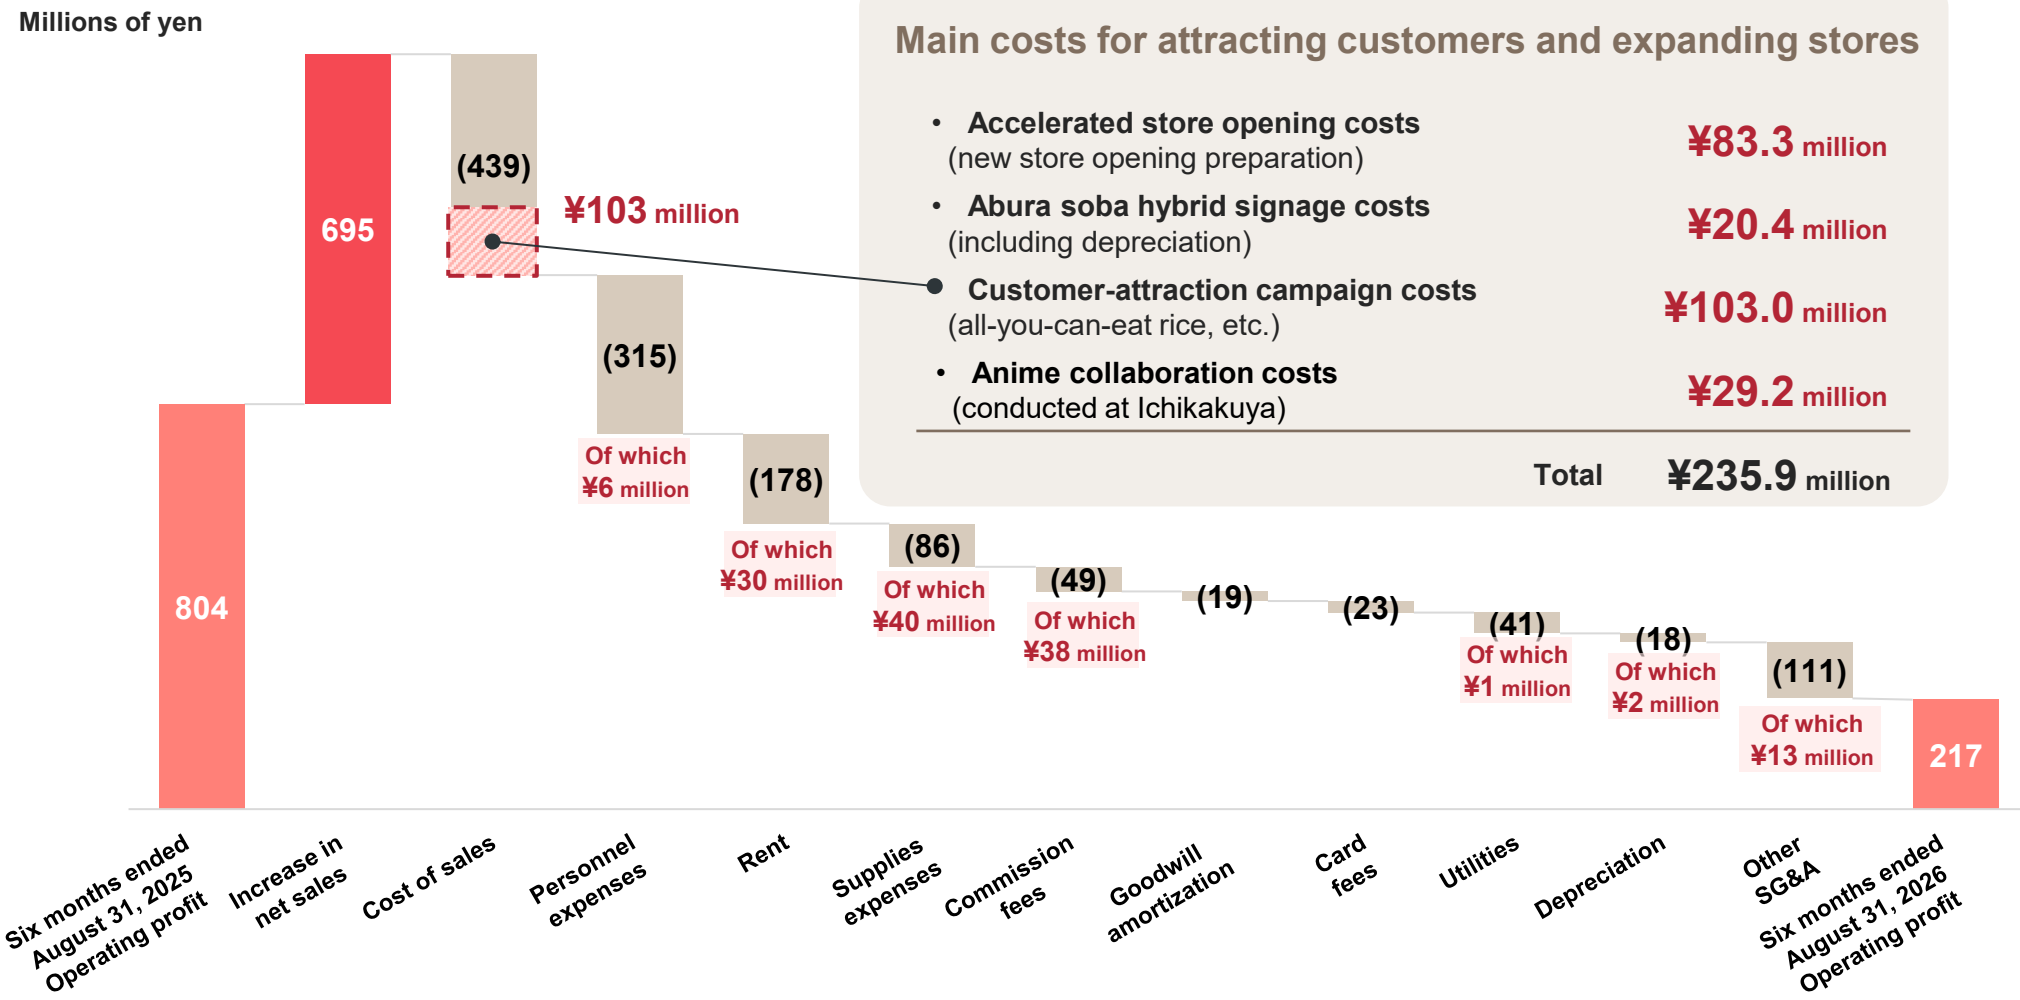

Millions of yen

* From the third quarter of the fiscal year ended February 28, 2025, approx. ¥30 million per quarter in size-based enterprise tax has been recorded. In that third quarter, size-based enterprise tax totaling ¥92 million was recorded due to the increase in share capital in November 2024.

Operating Profit Variance Analysis (Year-on-Year)

In the six months under review, store openings accelerated and the opening plan progressed smoothly, but upfront costs from more openings, signage installation costs and customer-attraction campaigns weighed on profit.

Main costs for attracting customers and expanding stores

• **Accelerated store opening costs** (new store opening preparation)	**¥83.3 million**
• **Abura soba hybrid signage costs** (including depreciation)	**¥20.4 million**
• **Customer-attraction campaign costs** (all-you-can-eat rice, etc.)	**¥103.0 million**
• **Anime collaboration costs** (conducted at Ichikakuya)	**¥29.2 million**
Total	**¥235.9 million**

Decline in Existing-Store Sales

Since 2018, existing-store sales have declined due to successive price revisions in response to rising raw material costs, utility costs and minimum wages.

	Ichikakuya (Price of one regular bowl of ramen)	Rice
Fiscal year ended February 28, 2019	¥680	All-you-can-eat
Fiscal year ended February 29, 2020	¥780	All-you-can-eat
Fiscal year ended February 29, 2024	¥850	All-you-can-eat
Fiscal year ended February 28, 2025	¥950–¥1,030	Rice now charged (¥230) Late-night surcharge introduced (¥100)

The total price of ramen + rice + late-night surcharge (MAX ¥1,360) is about

2 Compared with 2018

times as high.

V-Shaped Recovery Strategies and Growth Strategies

Leaping to the next stage by promoting two V-shaped recovery strategies and two growth strategies.

Expanding Abura Soba Sohonten Hybrids

Maximizing earnings with dual-brand hybrid stores

Promoting the dual-brand hybrid strategy combining Ichikakuya and Abura Soba Sohonten. Leveraging existing stores to limit additional investment aim to further broaden the customer base and maximize earnings.

Engaging App Members

Approach to app members

Offering app members attractive services that encourage repeat visits.

Accelerating Store Openings

Accelerated store openings

Bringing forward the store opening plan that forms the foundation of our strategy. Sowing seeds early to lay the groundwork for growth.

Overseas Expansion

Overseas expansion

Full-scale promotion of overseas expansion, starting with the establishment of a joint venture in Thailand. Leveraging the joint venture partners' brands and strong local networks, we aim to establish the leading premium Sanuki udon brand in Southeast Asia.

V-Shaped Recovery (1): Abura Soba Sohonten Dual-Brand Hybrid Store Expansion

Leveraging existing stores to limit additional investment to improve profitability and customer traffic.
Achieved hybrid conversion of 100 stores within 95 days of announcing the strategy.

As of October 13
Hybrid stores
130 stores

Tapping into new needs

(1) Strong even in summer.
(2) 17 types of free tabletop condiments.
Customers can customize each bowl to suit their tastes.
(3) An option for those who find lekei ramen a little too rich.
(4) Good value for money. Low price.
¥890 for regular, large and extra-large: all the same price

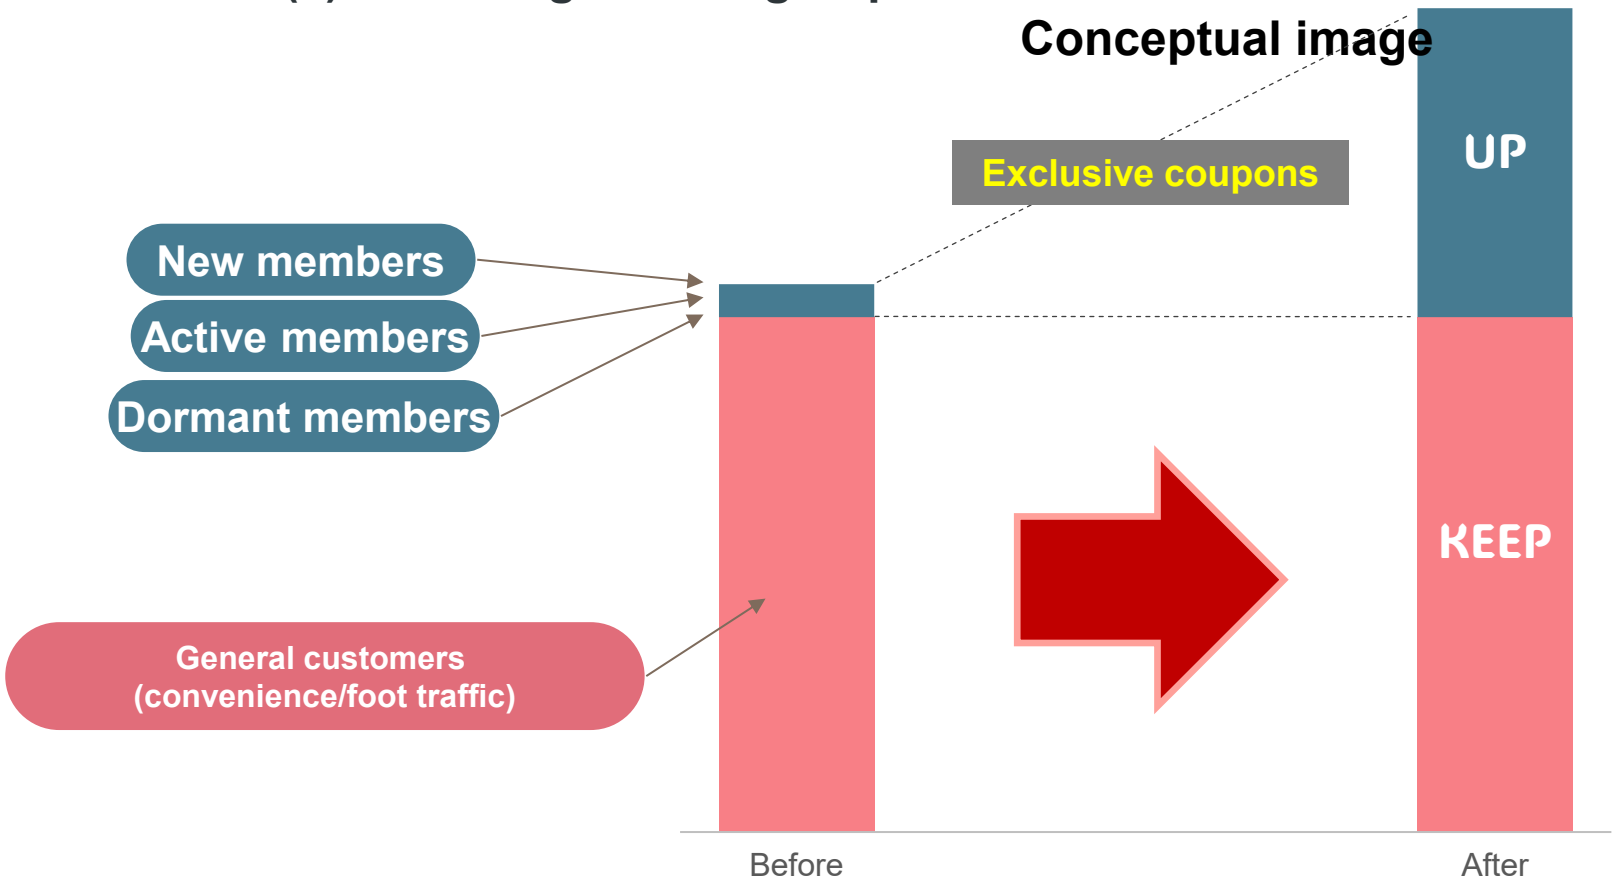

Post-introduction trends

油そば総本店	Before (Mar.–Jun.)	After (Jul.–Sep.)
Existing-store sales YoY	94.4–95.3%	98.1–102.8%

V-Shaped Recovery (2): Engaging App Members

Keep the number of general customers attracted by the convenience and foot traffic of prime locations near stations and increase the proportion of all customer visits made by app members from approximately 4% to 30%.

Measures: (1) Encourage repeat visits by active members
(2) Reactivate dormant members
(3) Encourage new sign-ups

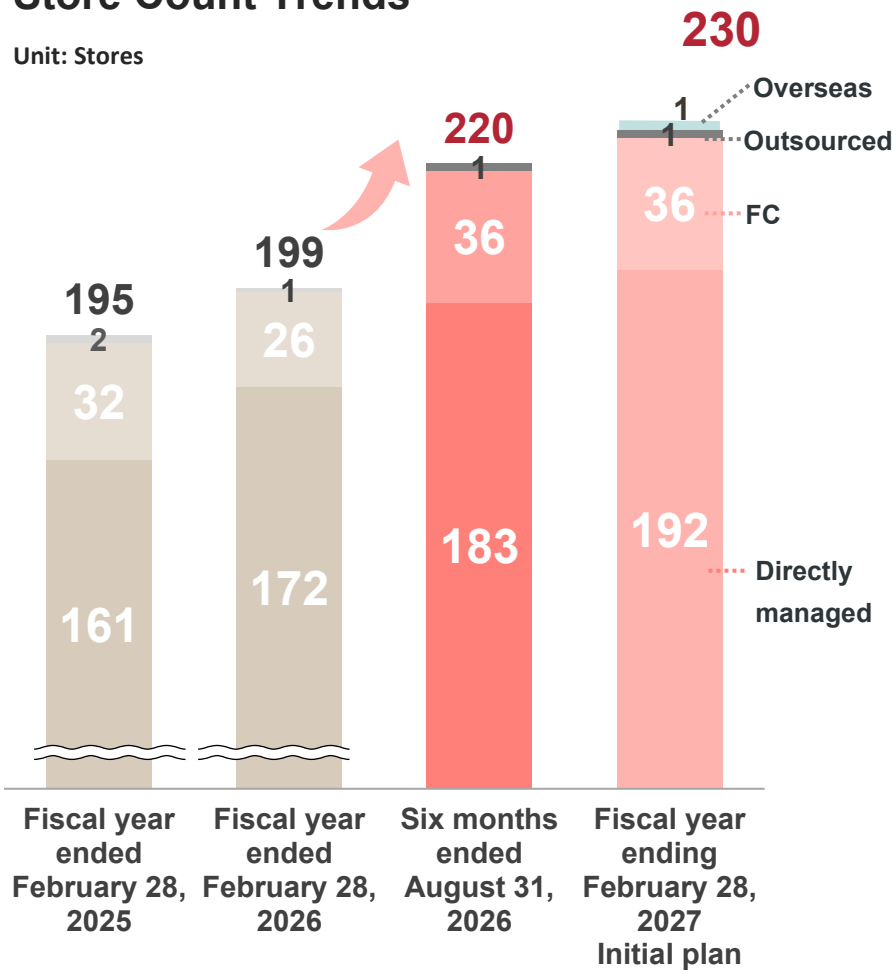

*Dormant members: customers who have not used the app for 180 days or more but less than 365 days

Growth Strategy (1): Accelerating the Pace of Store Openings

Accelerated store openings in the ramen business at a pace exceeding the initial plan.
Net increase of 21 stores from the end of the previous fiscal year.

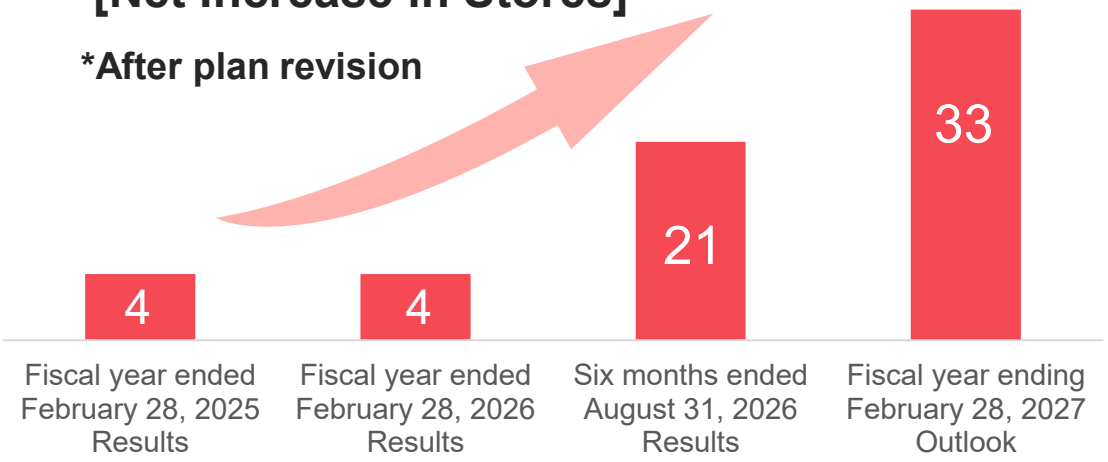

Store Count Trends

Sources of Competitiveness

Growth plan built on three foundations

Leveraging real estate business expertise in our store opening strategy, together with accumulated store operation expertise, to achieve smooth store openings

Plus, leveraging our M&A track record to expand into multiple formats

M&A

Business turnaround through accumulated expertise

Starting with a business transfer from Yushin Foods in June 2003, acquired shares of Chikarameshi Co., Ltd. in June 2014,
and of Kobe Lamp-tei Co., Ltd. in March 2015

In July 2016, acquired Triangle Co., Ltd., making "Ganso Hakata Nakasu Yatai Ramen Ichiryu"
a new in-house brand and **entering the franchise business**

When the Company acquired shares of Chikarameshi Co., Ltd. in the fiscal year ended February 28, 2015, its net sales were ¥5.7 billion, but just 4 years later, in the fiscal year ended February 28, 2019, it achieved **net sales of ¥12.2 billion**

In the fiscal year ended February 28, 2026, **net sales reached ¥17.8 billion**

Growth
through
corporate turnaround

Target companies

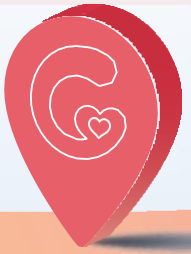

- Store properties
- Brands
- Human resources

+

Our strengths

- Brands and products suited to multi-store expansion
- Employee training system
- Commercial distribution leveraging scale and synergies
- Ability to simplify operations

M&A

Purpose of corporate turnaround M&A

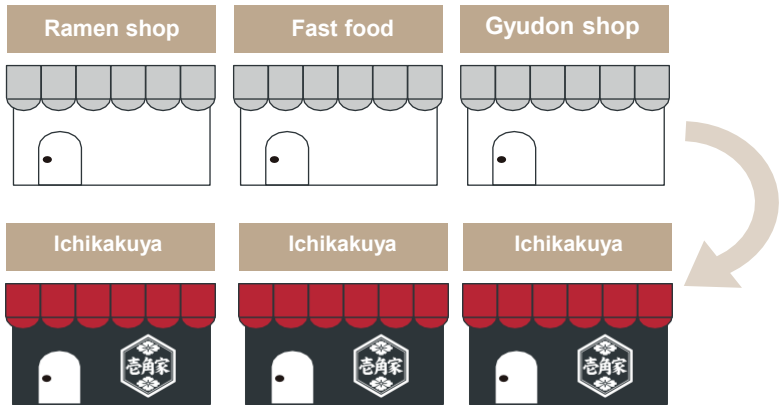

Corporate turnaround M&A enables efficient openings by acquiring multiple fitted-out properties and developing stores
In addition, acquiring new brands through M&A significantly shortens the time compared with developing formats in-house
Analyzing the location characteristics of acquired properties to select the optimal format from among our own brands
Converting business formats through speedy construction that makes use of existing facilities (fitted-out environment)

1. Property acquisition

Discernment

Acquire companies with properties whose location conditions are similar to our existing stores, and convert their business formats

Efficiency with fitted-out properties

2. New brand acquisition

Extensive PMI success expertise

No need for format development or testing, greatly reducing the lead time for format development
Taking over human resources makes for a more diverse company

In-house development	M&A approach
8 steps	2 steps
Format development / Product development / Testing / Packaging Property acquisition / Recruitment / Training / Rollout	Investment / Rollout

Major time savings

Real Estate Business Expertise and Network

Real estate business × restaurant business synergies

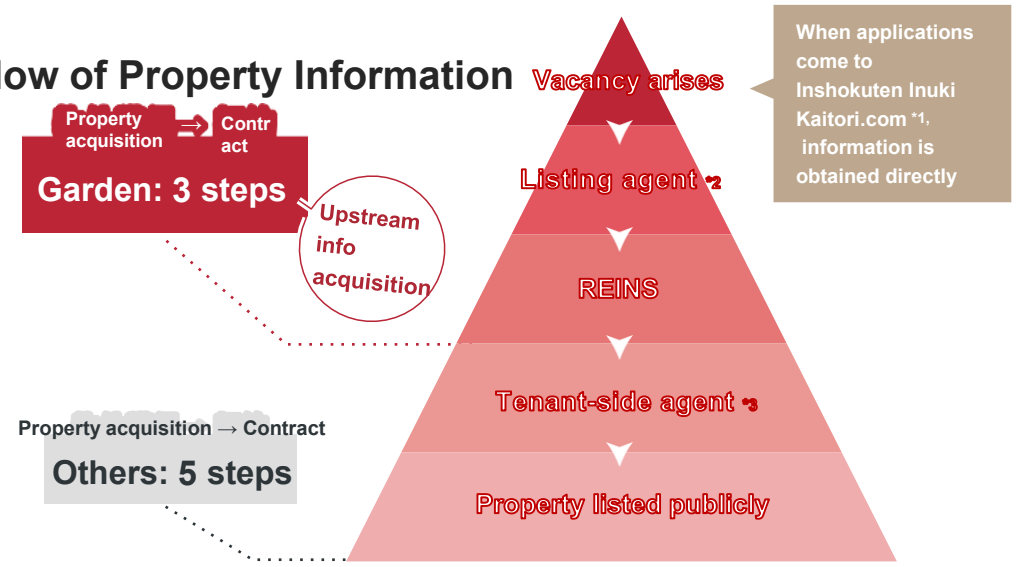

Able to acquire properties in good locations on favorable terms

Benefit	Means of achieving the benefit (obtaining property information) 1.–3. are the Company's own proprietary means
Property information without time lag	✓ **1. Information system**: REINS, Japan's real estate information network operated by designated real estate information network organizations
Off-market property information • Inquiries from corporations considering withdrawal • Inquiries from sole proprietors • Property purchase negotiations, leasing, etc.	✓ **2. Inquiries via the Company website:** Dedicated property website established ✓ **3. Inshokuten Inuki Kaitori.com:** Dedicated site operated by the Company (approx. 10 inquiries per month / approx. 120 per year) ✓ **4. Specialized tenant brokers:** Approx. 300 pieces of information per month from approx. 100 designated brokers ✓ **5. Fax promotions:** Sourced from the MLIT real estate broker search site (20,300 in Tokyo alone)

Property Information Acquisition Flow

1. Operate a store trading site (Inshokuten Inuki Kaitori.com) and maintain a real estate license to access REINS
2. Possible to obtain property information further upstream than competitors
3. Possible to secure prime properties faster than competitors

Flow of Property Information

*1: Network system for exchanging real estate property information / *2: Real estate agent commissioned directly by the owner to find tenants / *3: Brokerage agent that finds customers for real estate transactions

Brand Strength & Store Operation Expertise

Aiming for brand recognition through prime locations and highly visible signage

Approximately one-third of directly managed stores are located in clusters in high-foot-traffic areas as part of our area-dominance strategy (Shinjuku-ku: 29 stores / Shibuya-ku: 9 stores / Around Ikebukuro Station: 11 stores)

By repeatedly opening stores in prime locations such as corner lots, our signage, highly visible thanks to heavy foot and vehicle traffic, not only attracts customers to stores but also earns high recognition

Installation of highly visible signage

Shinjuku Kabukicho (Ichikakuya / YAMASHITA HONKI UDON)

Located in front of TOHO CINEMAS SHINJUKU (Godzilla Building) in the heart of Shinjuku Kabukicho, the store has installed signage that is highly visible from afar amid heavy traffic

Ichikakuya Ikebukuro Nishiguchi

An entire building (1st–4th floors) on a busy street right by the west exit of Ikebukuro Station, with signage highly visible over a wide area

* As of early March 2026

Brand Strength & Store Operation expertise

Quality of Soup and Noodles, the Heart of Ramen

Rather than adopting the traditional style of preparing soup in stores, production of the soup base ingredients is outsourced to GIFT INC.

A system that prevents flavor inconsistency in in-store cooking and lets anyone easily reproduce the authentic taste

Special quick-prep soup

Consistent flavor every day with in-store preparation time of 30–40 minutes

Saves labor, enables staff to learn work processes in a short time and reduces personnel costs The special soup preparation process is also applied to brands other than Ichikakuya

Soup & noodles
Faster service

Special quick-cook noodles

To increase table turnover, developed quick-cook noodles with boiling time shortened by 40 seconds Serving time of approx. 5 minutes with regular noodles has been reduced to approx. 4 minutes, significantly improving table turnover during peak hours

Addressing labor shortage

Consistent flavor | Labor-saving cooking process | Even less experienced staff can cook

* Photos are for illustrative purposes only

Brand Strength & Store Operation expertise

Delivering Consistent Products

A system enabling not only full-time employees but also part-timers and foreign staff in stores to provide consistent products

Improving and stabilizing quality through well-developed manuals

01

Assigning training staff

Dedicated training staff are assigned to make full use of the manuals created, providing continuous education and training to pass on the necessary skills and knowledge

02

Regular cooking training sessions

To provide the same quality products at every store as a chain, recipes and cooking processes are standardized and cooking training sessions are held regularly

03

Promotion tests and other employee evaluation systems

Promotion assessments based on role-specific skills and knowledge help maintain high standards of quality, service and cleanliness (QSC).

04

Diversity

Manuals in 4 languages

As employees' nationalities become more diverse, store operation manuals are provided in Japanese, English, Nepali and Vietnamese to deliver high customer satisfaction

05

Thorough store hygiene management

To ensure customers can use our stores with peace of mind, dedicated hygiene managers visit each store to conduct inspections
Hygiene items are also incorporated into evaluations to ensure thorough store hygiene management

* Photos are for illustrative purposes only

Future Growth Strategy

From Japan to the World

ESG Initiatives

Directly linking our operations as "food infrastructure" with ESG. Drawing on society's support, we drive medium- to long-term growth in corporate value and shareholder value.

✓ Reducing food loss

We focus on reducing food loss, the most important issue for a restaurant operator, pursuing lean, efficient operations to both reduce environmental impact and improve profitability.

✓ Promoting diversity

We are creating an environment where staff can express their individuality by actively promoting women to management positions and utilizing multinational talent. We believe these "diverse perspectives" are the source of new next-generation business formats.

✓ Ensuring transparency and risk management

We promote transparent and fair management through compliance with the Corporate Governance Code and the establishment of relevant policies while we build a self-correcting organization through a compliance committee and an internal reporting system.

For details of our sustainability policy, please visit our corporate website below.
