Day 1: Director Takuya Miyaguchi joins talk session on BtoC/BtoB sustainability market strategies.

Hamee Corp. (Head Office: Odawara City, Kanagawa Prefecture, President and CEO: Ikuhiro Mizushima, Securities Code: 3134, TSE Standard Market) announces that Parallel Plastics, its plastic upcycling service, will sponsor "REMARE Plastic SUMMIT 2026," held from Wednesday, October 14 to Friday, October 16, 2026, at KOKUYO CO., LTD.'s Tokyo Shinagawa Office "THE CAMPUS." At the venue, we will exhibit products and materials made from corporate waste plastic. This includes our new line of bookends and shoehorns, which were unveiled at the 20th LIFE×DESIGN exhibition held in September.

■ Background of the Sponsorship

Parallel Plastics is an upcycling service that transforms obsolete warehouse inventory and manufacturing offcuts into brand-new products. We bypass processes such as sorting, washing, and pelletization, without adding any virgin materials. Made from 100% pure recycled plastic. Embodying the concept of "Beautiful Precisely Because It Is Mixed," our products feature one-of-a-kind textures born from discarded plastics of blended colors and materials. Since launching the service in May 2023, we have delivered over 10,000 upcycled products to market.

We believe that encountering waste plastic should begin not as an obligation, but as something to be enjoyed. The event's theme, "From Experimentation to Implementation," aligns seamlessly with Parallel Plastics' journey of turning material stories into products for daily life. Hamee will join this event alongside leading manufacturers and designers, bringing our own upcycled products to the stage.

■ Exhibition Content

At the Sponsor Special Exhibition Corner, we will exhibit two new products from Parallel Plastics crafted from various unutilized waste plastics generated across society.

- Bookends
- Shoe horns

Design: DRILL DESIGN

■ Talk Session Presentation

On the first day of the summit, Wednesday, October 14, Parallel Plastics Director Takuya Miyaguchi will speak during the talk session titled "BtoC/BtoB Corporate Approaches to the Sustainability Market" (11:40 AM–12:20 PM).

■ About "REMARE Plastic SUMMIT 2026"

This exhibition showcases products crafted from recycled plastic through collaboration between Japanese manufacturers and designers. 7 companies are participating in this edition: Kanro Inc., KOKUYO CO., LTD., DENSO CORPORATION, NITTO KOGYO CORPORATION, Fuji Seal International, Inc., Misaka Lite Industry Co., Ltd., and Mitsubishi Electric Corporation.

■ About "Parallel Plastics"

"No More Discarding Plastics" — Parallel Plastics is an upcycling service that transforms unwanted plastics of varying compositions into new products through a melting and blending process. We bypass processes such as sorting, washing, and pelletization, without adding any virgin materials. Launched in May 2023 as an alternative pathway alongside traditional recycling, which relies on sorting and virgin materials. Recipient of the Good Design Award 2025.
