Fiscal year ending March 31, 2026 (forecast)				5.00	5.00

Note: Revisions to the most recently announced dividend forecast: None

3. Consolidated forecast for the fiscal year ending March 31, 2026 (from April 1, 2025, to March 31, 2026)

(%: Changes from the corresponding period of the previous fiscal year.)

	Net sales		Operating profit		Ordinary profit		Profit attributable to owners of parent		Net income per share
	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%	Yen
Full year	36,500	16.2	350	(91.6)	400	(90.1)	200	(93.2)	5.00

Note: Revisions to the most recently announced earnings forecast: None

* Notes:

(1) Material changes in subsidiaries during this period: None

Newly included: - company
Excluded: - company

(2) Application of accounting methods specific to the preparation of quarterly consolidated financial statements: None

(3) Changes in accounting policies, changes in accounting estimates, and restatement

- (i) Changes in accounting policies due to revisions to accounting standards and other regulations: None
- (ii) Changes in accounting policies due to other reasons: None
- (iii) Changes in accounting estimates: None
- (iv) Restatement: None

(4) Number of issued shares (common shares)

(i) Total number of issued shares at the end of the period (including treasury shares)

Nine months ended December 31, 2025	41,890,700 shares
Fiscal year ended March 31, 2025	41,890,700 shares

(ii) Number of treasury shares at the end of the period

Nine months ended December 31, 2025	1,867,539 shares
Fiscal year ended March 31, 2025	1,889,458 shares

(iii) Average number of shares of common stock during the nine months

Nine months ended December 31, 2025	40,014,941 shares
Nine months ended December 31, 2024	38,734,550 shares

Note: The Company has introduced Stock Benefit Trust (J-ESOP). The shares of the Company's stock held by the Stock Benefit Trust are included in treasury shares which are deducted when calculating the number of treasury shares at year-end and the average number of shares during period.

* Review by a certified public accountant or auditing firm of the attached quarterly consolidated financial statements: None

* Proper use of earnings forecasts, and other special matters

1. These forward-looking statements, including forecasts, in this material are based on data currently available to management and certain assumptions that management believes are reasonable, and are not intended as a guarantee that the Company will achieve these targets. The actual results may differ materially from those projected herein depending on various factors. For the conditions underlying earnings forecasts and notes on using earnings forecasts, please refer to "(3) Explanation of consolidated earnings forecasts and other forward-looking information"

2. The financial results materials were posted on the Company's website on Friday, January 30, 2026.

1. Qualitative Information on Quarterly Financial Results

(1) Explanation of operating results

During the nine months ended December 31, 2025, the Japanese economy was expected to continue its gradual recovery, supported by improvements in the employment and income environment and the effects of various policies. However, the risk of economic conditions worsening has been heightening due to the impact of the U.S. trade policy, the effect of ongoing inflation on personal consumption, and other factors. Furthermore, continued attention must be paid to the impact of financial and capital market volatility, etc.

The cloud and internet infrastructure market is expected to see increased investment in the utilization of generative AI, cloud migration, and digital business amid growing momentum related to generative AI. We anticipate that investment will continue to expand, driven by growing expectations for domestic public clouds.

In these circumstances, the Group aims to support the realization of what customers “want to do” by providing the Group’s one-stop services from system integration and development to provision, maintenance, operation and customer support, etc., for cloud internet infrastructure services. With the main goal of realizing the success of more than 480,000 existing customers and potential customers, the Company focuses on expanding Cloud services that have high growth potential in the future.

Net sales were 24,024,567 thousand yen (up 12.3% year on year), bolstered by an increase in GPU infrastructure services sales due to active GPU investment initiated in the previous fiscal year, steady growth in Cloud services sales, and increased revenue from newly acquired projects in Other services.

Operating loss was 1,117,480 thousand yen (operating profit of 2,585,417 thousand yen in the same period of the previous fiscal year). This was primarily due to the steady progress of investments in human resources to strengthen the development of cloud service functions and sales promotion, as well as increases in depreciation from GPU-related investments, server maintenance expenses, data center rents, and the cost of sales for Other services.

Ordinary loss was 799, 588 thousand yen (ordinary profit of 2,488,466 thousand yen in the same period of the previous fiscal year). Although the Company recognized subsidy income from Cloud Programs as non-operating income, this was offset by the recording of an operating loss and other factors.

Loss attributable to owners of parent was 551,025 thousand yen (profit attributable to owners of parent of 1,642,271 thousand yen in the same period of the previous fiscal year) mainly due to the posting of an ordinary loss.

Net sales by service category are as follows: Effective from the three months ended June 30, 2025, the name of the “GPU cloud services” category was changed to “GPU Infrastructure services” in order to provide a clearer representation of our business activities. In addition, certain services previously included in Physical Base services were reclassified under GPU Infrastructure services, while some services previously included in GPU cloud services were transferred to Cloud services. The year-on-year figures below have been restated for comparison, reflecting this change in naming/categorization.

(i) Cloud services

Net sales of Cloud services were 11,372,412 thousand yen (up 9.8% year on year) mainly because SAKURA Cloud and SAKURA Web Hosting continued to perform favorably.

(ii) GPU infrastructure services

Net sales of GPU infrastructure services were 4,638,938 thousand yen (up 13.9% year on year), mainly due to active GPU investment from the previous fiscal year.

(iii) Physical base services

Net sales of Physical base services were 2,332,363 thousand yen (down 5.6% year on year), mainly due to a decline in the use of the housing service and the exclusive server service.

(iv) Other services

Net sales of Other services were 5,680,853 thousand yen (up 26.4% year on year) mainly due to the receipt of large-scale government and public sector projects.

(2) Explanation of financial condition

Assets, liabilities and net assets at the end of the nine months ended December 31, 2025, and the factors affecting them are as follows:

(i) Assets

Total assets at the end of the nine months ended December 31, 2025 increased 1,199,393 thousand yen (up 1.5%) from the end of the fiscal year ended March 31, 2025, to 82,618,864 thousand yen. This was mainly due to an increase in property, plant and equipment, including service equipment related to Generative AI services and containerized data centers.

(ii) Liabilities

Total liabilities at the end of the nine months ended December 31, 2025, increased 1,881,707 thousand yen (up 3.7%) from the end of the fiscal year ended March 31, 2025, to 53,043,797 thousand yen. This was mainly due to an increase in lease liabilities related to the expansion of the Ishikari Data Center and service-related equipment, as well as an increase in borrowings for the procurement of equipment related to Generative AI services.

(iii) Net assets

Total net assets at the end of the nine months ended December 31, 2025, decreased 682,314 thousand yen (down 2.3%) from the end of the fiscal year ended March 31, 2025, to 29,575,067 thousand yen. This was mainly due to a decrease in retained earnings associated with the recording of loss attributable to owners of parent.

(3) Explanation of consolidated earnings forecasts and other forward-looking information

Regarding the full-year consolidated earnings forecast, the expansion of Generative AI services and the strengthening of the sales structure through organizational restructuring have been successful, leading to the acquisition of several large-scale projects. Furthermore, we expect a revenue contribution in the fourth quarter from the approximately 1,100 newly installed B200 GPUs that will begin to be provided to major Japanese companies from February. In light of these factors, the Company has decided to maintain the full-year consolidated earnings forecasts announced in the "Notice Regarding Revision of Earnings Forecasts" dated July 28, 2025.

Note: If a revision of the earnings forecasts is considered necessary in accordance with future business developments, the Company will announce it immediately.
