# Notice Regarding Investment in Infrastructure for Generative AI Services

SAKURA internet Inc. (the "Company") hereby announces that, at the meeting of its Board of Directors held on July 28, 2026, the Company resolved to make an investment in GPU servers and related equipment for Generative AI services.

1. Reason for the Investment

   In recent years, demand for computing resources has increased rapidly for both training and inference workloads as the adoption and utilization of generative AI continue to expand.

   Against this backdrop, demand for the Generative AI services provided by the Company has remained strong, particularly among corporate customers, research institutions, and public sector organizations seeking access to high-performance GPUs. In order to address this robust demand and expand our service capacity, the Company has resolved to invest in server rack systems and related equipment incorporating NVIDIA® HGX™ Rubin NVL8 GPUs.

   Through this investment, the Company aims to further strengthen the service capacity and competitiveness of its generative AI offerings, while contributing to the development of AI infrastructure and the growth of the AI industry in Japan.

   The funds required for this investment are expected to be financed primarily through borrowings from financial institutions.

2. Details and Schedule of Acquired Assets

   Investment decision date: July 28, 2026

   Details: GPU servers, network equipment, storage equipment, etc.

   Amount: 26 billion yen

   Scheduled delivery period: January 2027 (scheduled)

   Scheduled start date for equipment service usage: To be determined

   (Note)The counterparty from which the assets will be acquired is a sales company, and there are no relationships between the Company and such counterparty that require disclosure.

3. Future Outlook

   The impact of this investment on current-period financial results is currently being assessed. We will promptly announce any information should timely disclosure become necessary.
