ENECHANGE Ltd.

ENECHANGE EV Charging Service introduced at ABBA RESORTS IZU Zagyoso in Izu, Shizuoka

EV charging spots are available for both guests and locals

ENECHANGE Ltd. is pleased to announce that it has installed one regular chone regular charger with two ports as part of its ENECHANGE EV Charging Service, which allows charging on a pay-as-you-go basis, at ABBA RESORTS IZU Zagyoso (Izu City, Shizuoka Prefecture). This is the first installation in Izu City, Shizuoka.

ENECHANGE EV Charging Service charging station installed at Zagyoso

■Background and Objectives

The ENECHANGE EV Charging Service focuses on destination charging: charging at locations where drivers may spend several hours and want to have a top-up charge, such as golf courses and other leisure facilities, as well as universities and other educational facilities.

ABBA RESORTS IZU Zaiyoso is a ryokan, or Japanese-style inn, located in the Izu Kogen villa area, and has installed an ENECHANGE EV charging station in its parking lot in anticipation of an increase in EV users in the future. The EV charging stations are open not only to guests of the ryokan but also to the general public, and are therefore expected to play a role in contributing to the local community.

The number of EVs and PHVs per 10,000 people in Shizuoka Prefecture is 24.4, ranking 13th in Japan*. We anticipate that this will help enhance convenience for EV drivers by allowing them to use the time they spend at the ryokan as a chance to charge, as well as improving convenience for local EV drivers.

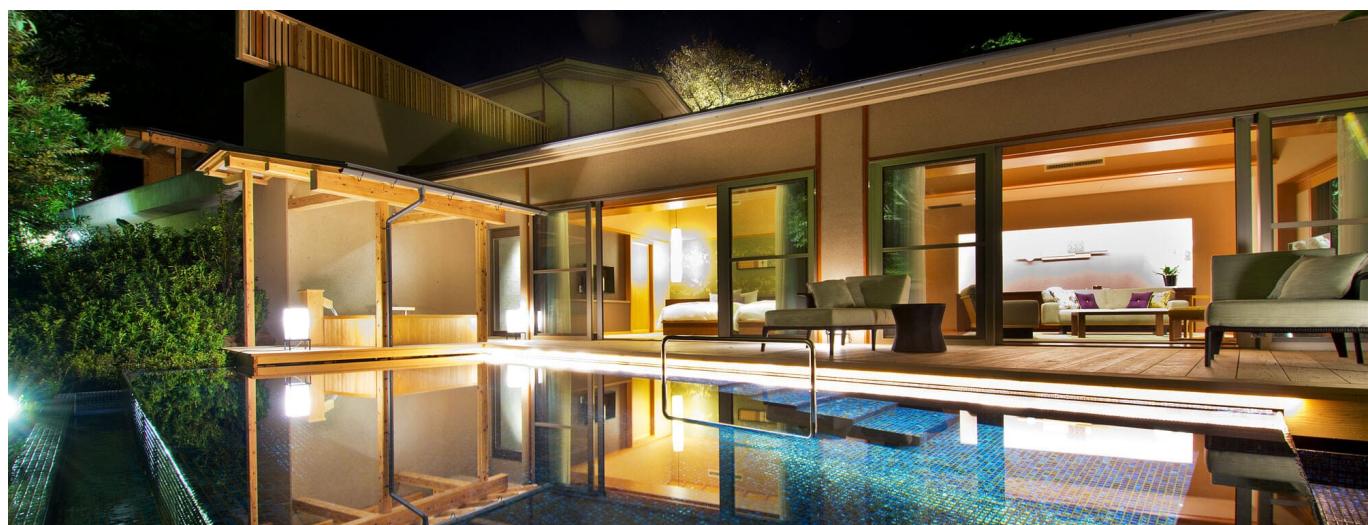

ENECHANGE

* Calculated by ENECHANGE based on the Next Generation Vehicle Promotion Center's "Subsidy Grant Status by Prefecture," the number of EV and PHV subsidies granted (FY 2009-2019), and population estimates for October 2019.

■Outline of facilities where the ENECHANGE EV Charging Service stations are installed

«Location»

Facility Name	Location	Number of EV charging ports installed (unit)
ABBA RESORTS IZU Zagyoso	1741-42 Yawatano, Ito-City, Shizuoka	2

■About ENECHANGE EV Charging Service

The ENECHANGE EV Charging service allows installation of EV charging facilities at minimal cost, ideal for charging at public locations such as commercial facilities, lodging facilities, and other public destinations. To improve convenience for EV drivers, we promote the development of domestic EV charging infrastructure by providing EV charger hardware, applications for users, and charging management systems for site hosts.
