Kudan Inc

Kudan Showcases “PRISM e-Road” – a Road Inspection and Maintenance Support Solution

At NEXCO-East Engineering Booth, Highway Techno Fair 2025

Kudan Inc. (hereinafter “Kudan”) is pleased to announce that it will showcase its road inspection and maintenance support solution, “PRISM e-Road” (tentative name), powered by Kudan’s digital-twin platform “Kudan PRISM”, at the booth of NEXCO-East Engineering Company Limited during Highway Techno Fair 2025, to be held at Tokyo Big Sight on October 16 (Thu.) and 17 (Fri.), 2025.

At the exhibition, Kudan will present use cases of PRISM e-Road aligned with NEXCO-East Engineering’s initiatives for road inspection and maintenance. The demonstration will highlight how the solution leverages Kudan PRISM’s lightweight, photorealistic 3D visualization, advanced spatial perception technologies, and integrated data management and collaboration capabilities to support digital transformation (DX) in road maintenance operations—enabling centralized management of on-site information, streamlined ordering processes, and reduced rework.

Going forward, Kudan will continue to advance the development and deployment of technologies that contribute to the safe and efficient maintenance of social infrastructure, including roads, while promoting labor savings and operational sophistication in the field.

Event Information

Highway Techno Fair 2025

- **Dates:** October 16 (Thu.) – 17 (Fri.), 2025
- **Venue:** Tokyo Big Sight, East Halls 7 & 8 – Exhibition booth of the NEXCO East Japan Group
