Possible Information Leak in Our Development Environment

We sincerely apologize to our customers and all stakeholders for the concern and inconvenience this has caused

Overview of the Incident	We detected suspicious access to a CSC-managed area on GitHub used for our software development, and found that information may have been leaked
Impact on Services	To date, no unauthorized access to our services, secondary damage, or impact on security functions has been identified as a result of this incident, and all services continue to operate normally
Our Response	Upon discovery, we took the necessary measures with top priority on preventing further damage, and are now investigating the cause and scope of impact and working to prevent recurrence
Impact on FY2026 Results	The revision of the full-year earnings forecast announced on Nov 13, 2026 reflects the impact of this incident Should a material impact on results for the current fiscal year be expected, we will promptly disclose it.

※For details, see "Notice and Apology Regarding a Possible Information Leak in Our Development Environment (First Report)" released on Nov 12, 2026

1 Revision of Full-Year Earnings Forecast

©Cyber Security Cloud , Inc. 2026

Revision of the FY2026 Full-Year Earnings Forecast

- Full-year forecast revised downward based on recent business trends; year-end dividend forecast unchanged
- Impact of the possible information leak is reflected in the revised forecast to the extent currently estimable

(Millions of yen)	(Consolidated) FY2025 Full Year	(Consolidated) FY2026 Initial Forecast	(Consolidated) FY2026 Revised Forecast	Change from Initial Forecast		YoY
				Amount	Percentage	
Revenue	5,084	6,000	5,700	-300	-5.0%	+12.1%
Operating Profit	1,102	1,200	1,102	-97	-8.1%	0.0%
Operating Profit Margin	21.6%	20.0%	19.3%	-0.7pt	—	—
Ordinary Profit	1,092	1,200	1,102	-97	-8.1%	+1.0%
Profit Attributable to Owners of Parent	821	865	780	-85	-9.8%	-5.1%

■ Revenue

We significantly reorganized at the beginning of the fiscal year to achieve the new Medium-Term Plan. Delays in the transition to the new structure caused some plans to fall behind schedule

■ Profit

In addition to lower profit from the revenue shortfall, unplanned costs arose, including expanded head office space and the response to the possible information leak

©Cyber Security Cloud , Inc. 2026

Reasons for the Revision and H2 Improvements

- The major reorganization of sales and development organizations delayed sales activities in H1
- Reflects known impacts, including response costs for the possible information leak announced on Nov 12, 2026

Reorganization

Jan 2026: Major reorganization of sales and development organizations for the new Medium-Term Plan

Merged product-based organizations to strengthen cross-selling and customer needs-based product management

Issues That Emerged in H1	H2 Actions and Current Status
Sales delays during the transition to the new structure	**Redefined roles and KPIs under the new structure** Rebuilt sales activities by strengthening cross-product proposals
Change in price revision plan	**Revised the scope and timing of price revisions given churn risk** Churn impact limited; main revenue uplift expected from Q4 onward

Possible Information Leak

Impact of the possible information leak (announced Nov 12) on results

※Includes forensic costs, etc. Should a material impact on results arise, we will promptly disclose it

©Cyber Security Cloud , Inc. 2026

2 Overview of Results for FY2026 3Q

©Cyber Security Cloud , Inc. 2026

Executive Summary

ARR P10

5.50 bn yen

YoY: +14.9%

Revenue (Q3 YTD) P11

4.19 bn yen

YoY: +12.6%

Operating Profit (Q3 YTD) P9

0.89 bn yen

YoY: +6.0%

Q3 Topics P16~20

- Surge in cyberattacks and data breaches, and stronger government countermeasures
- Rising security demand and growing opportunities for CSC
- Progress in service expansion into the "Security for AI" domain
- Price revisions for key products and their contribution to results

©Cyber Security Cloud , Inc. 2026

Overview of Results

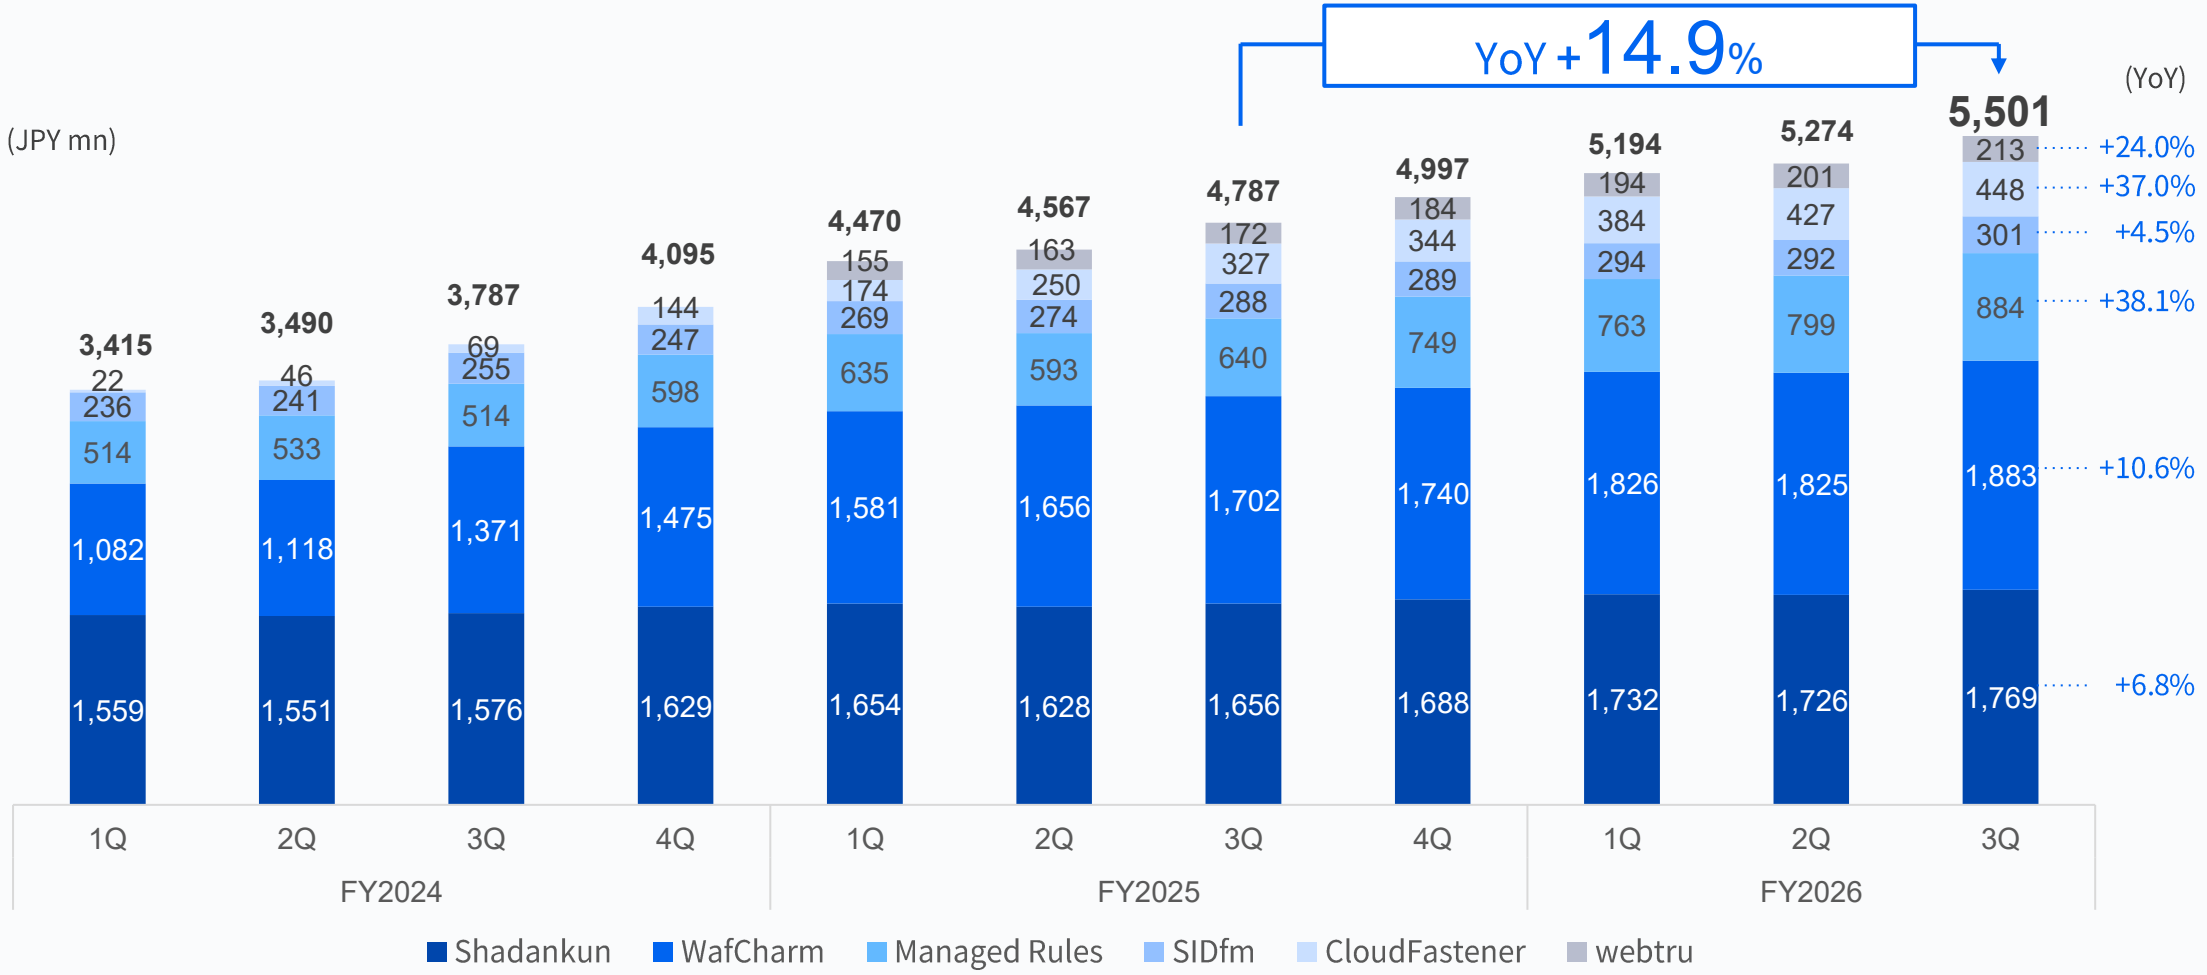

- Revenue of 4.19 bn yen (+12.6% YoY) and operating profit of 0.89 bn yen (+6.0% YoY)

(Millions of yen)	(Consolidated) FY2025 Q3 YTD	(Consolidated) FY2026 Q3 YTD	YoY	(Consolidated) FY2026 Revised Forecast	Progress Rate
Revenue	3,728	4,199	+12.6%	5,700	73.7%
Gross Profit	2,449	2,746	+12.1%	—	—
Operating Profit	844	894	+6.0%	1,102	81.2%
Operating Profit Margin	22.6%	21.3%	-1.3pt	19.3%	—
Ordinary Profit	804	901	+12.0%	1,102	81.8%
Profit Attributable to Owners of Parent	567	611	+7.6%	780	78.3%

©Cyber Security Cloud , Inc. 2026

Variation in ARR

- Company-wide ARR grew 14.9% YoY
- From Q3, price revisions apply to all Managed Rules customers and to SIDfm customers at renewal

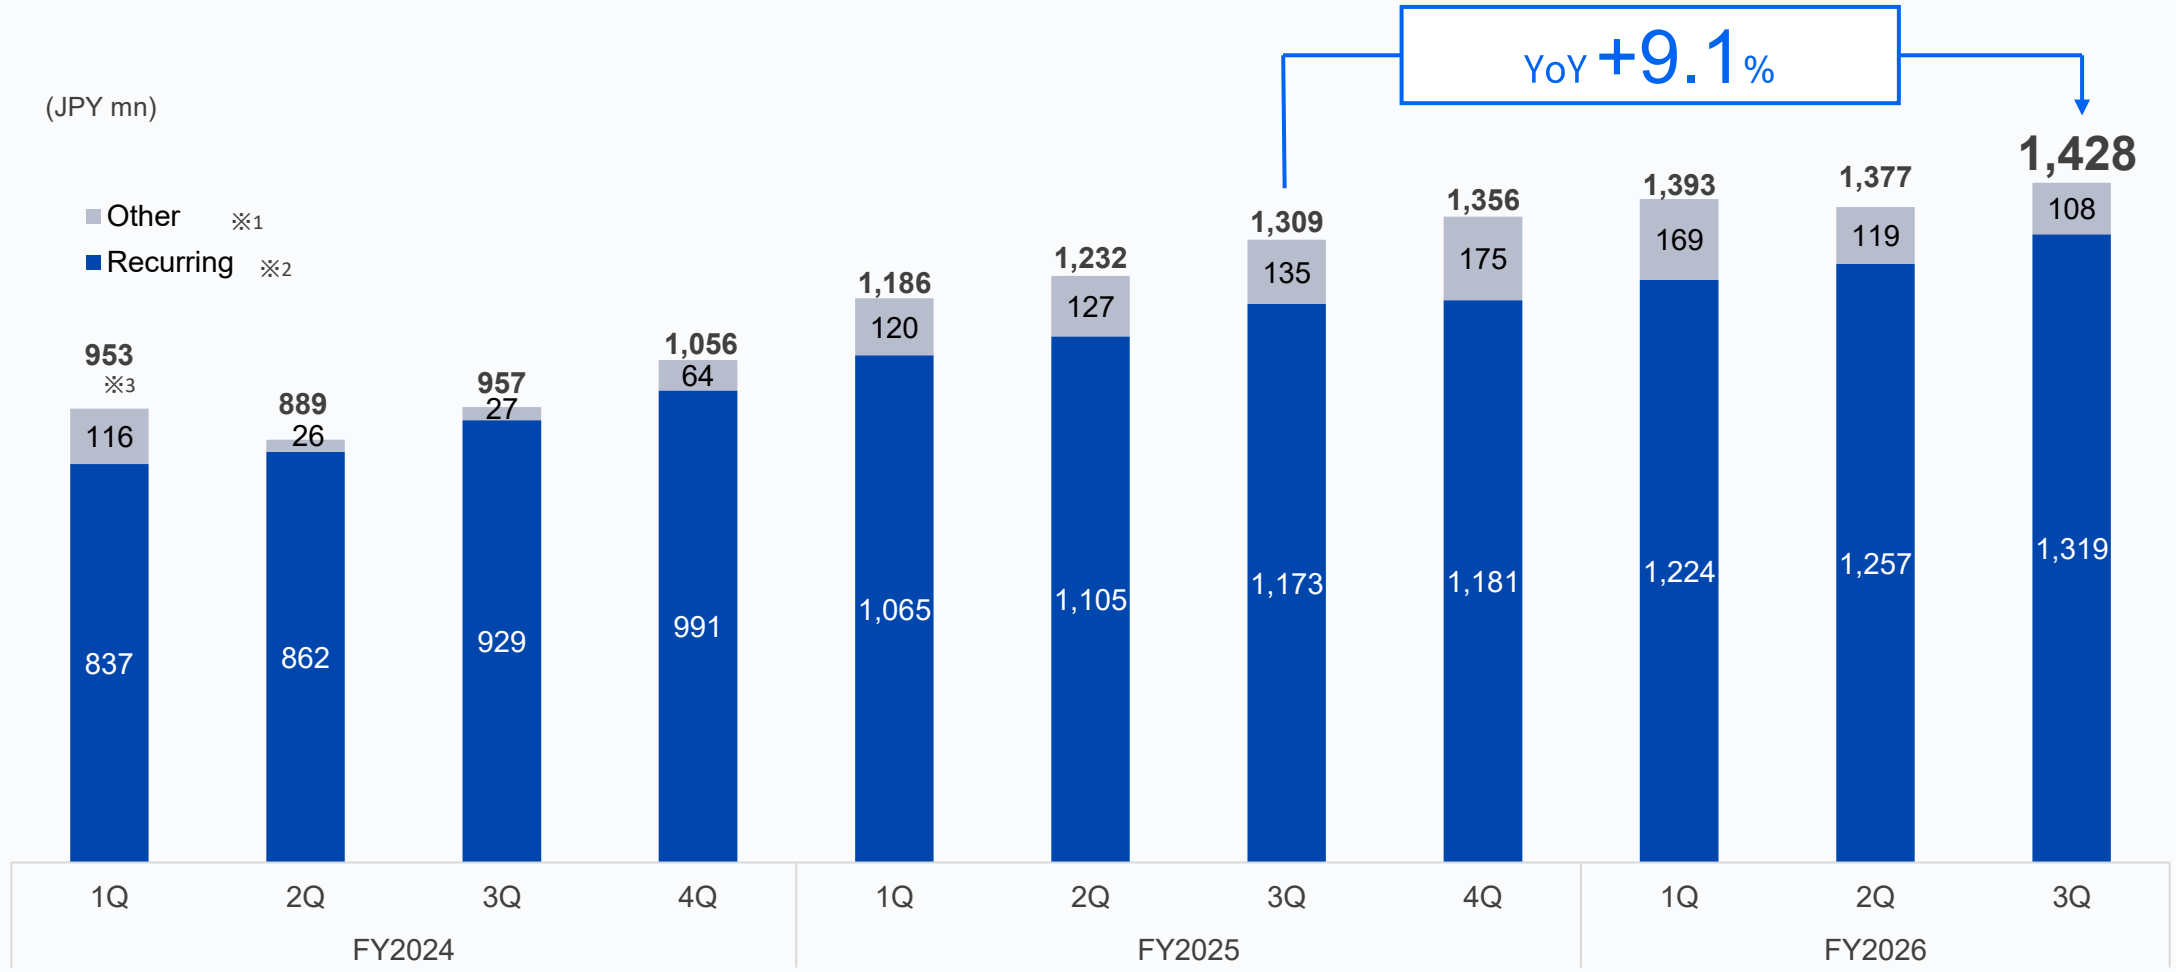

ARR: Annual Recurring Revenue. Calculated by annualizing MRR (Monthly Recurring Revenue: the total recurring revenue earned monthly from existing customers) as of the end of the relevant month, by multiplying it by 12
The number of users and churn rates for Shadankun and WafCharm are shown in Corporate Profile, "Our Characteristics (2) Stable Earnings Base"

©Cyber Security Cloud , Inc. 2026

Variation in Revenue

- With price revisions starting to apply, recurring revenue from each product grew steadily
- Following Q3, the WafCharm price revision takes effect, and recurring revenue is expected to build up further

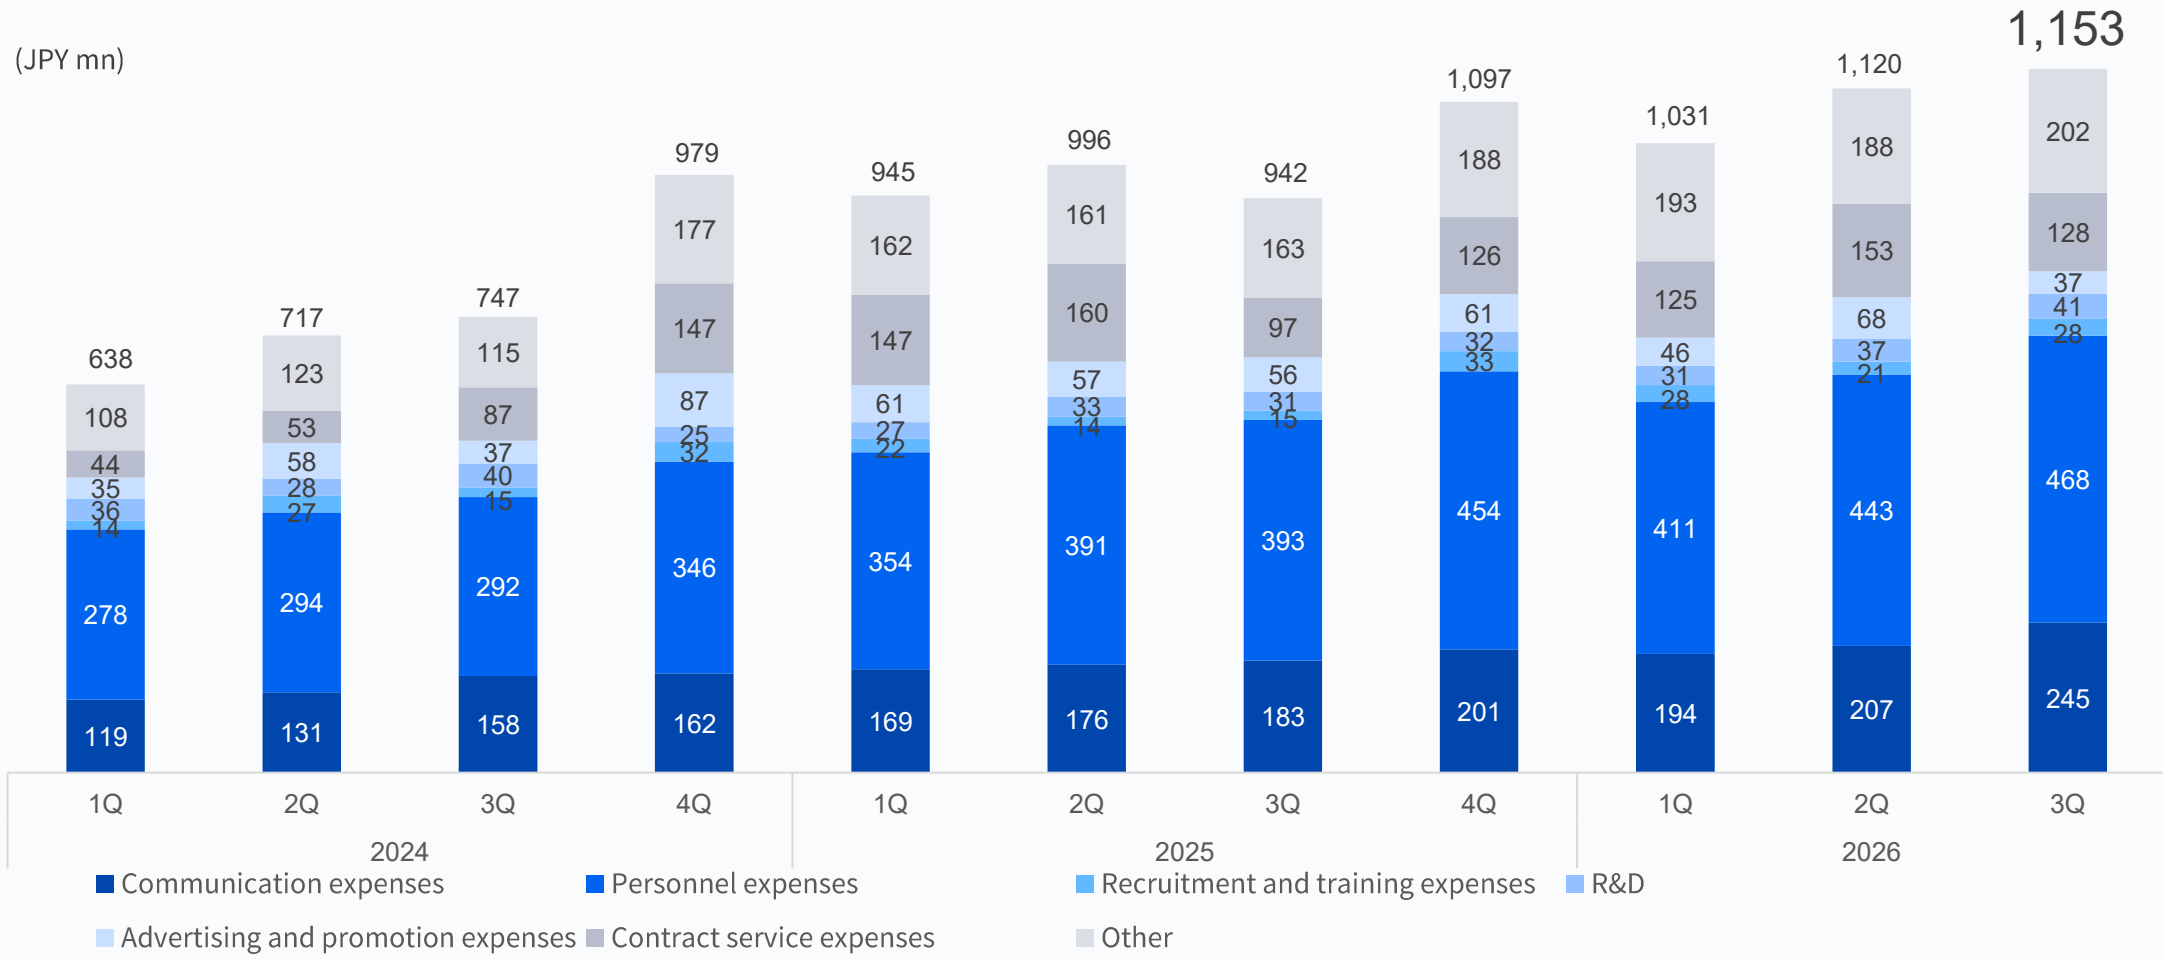

※1 Total revenue including spot contracts such as initial installation fees, vulnerability assessments, and contract development projects
※2 Total MRR of Shadankun, WafCharm, Managed Rules, SIDfm, CloudFastener, and webtru
※3 Includes approximately 70 million yen in projects related to the Digital Agency's Government Cloud

©Cyber Security Cloud , Inc. 2026

Operating Costs (Cost of Revenue and SG&A)

- Communication expenses rose on wider internal AI use and temporary dual operation during server migration
- Personnel expenses rose with headcount growth from active hiring. From Q4, we expect higher costs from expanded office space

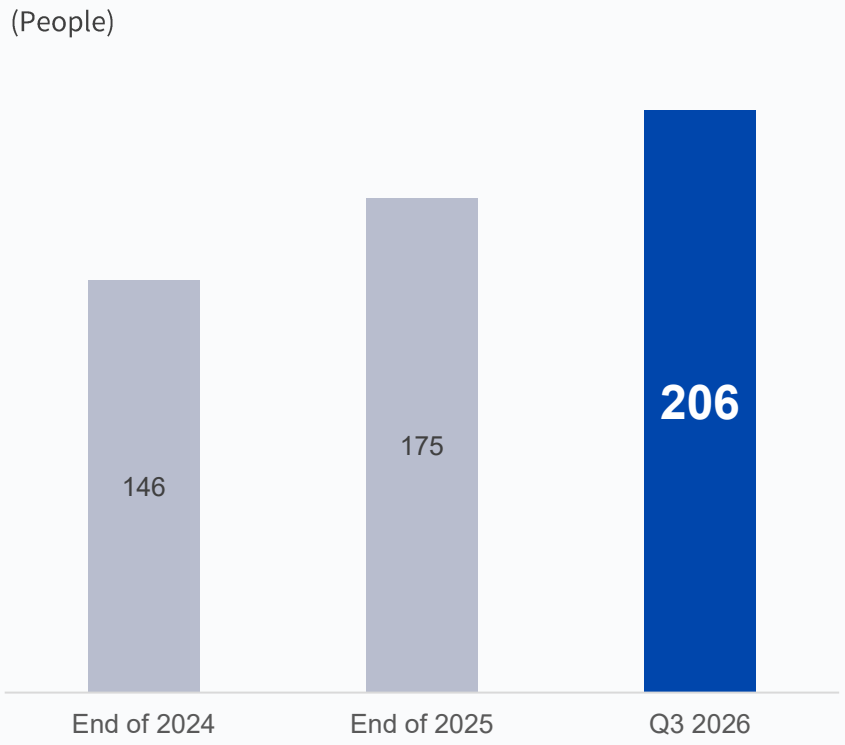

©Cyber Security Cloud , Inc. 2026

Trend in Number of Employees

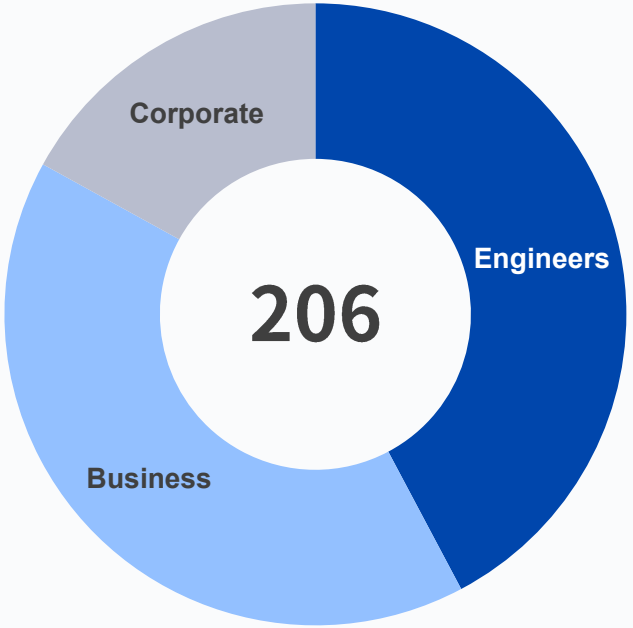

- Record quarterly hiring steadily expanded our workforce
- Hiring focused on sales, marketing, and engineering to strengthen sales and development

Trend in Number of Employees※

※Headcount includes temporary staff and represents the combined figure for the Japanese and U.S. entities.
Generative Technology has been a consolidated subsidiary since 2024, and DataSign since 2025

Q3 2026 Personnel Composition

3 Topics in FY2026 3Q

Cyberattacks and data breaches surge; government acts

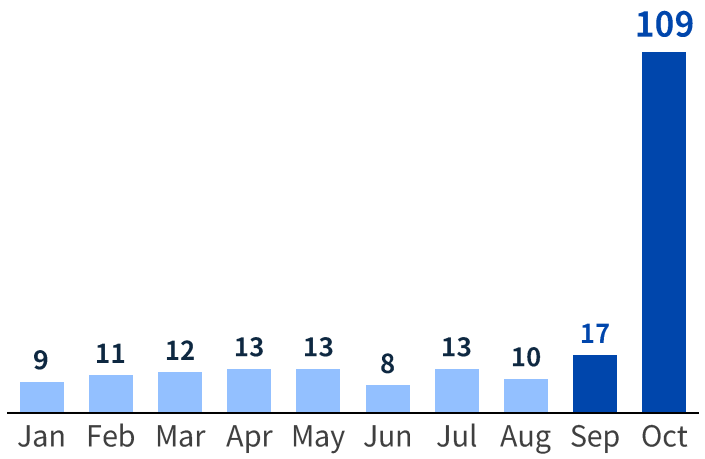

- Data breaches from unauthorized access keep occurring as cyberattack threats intensify
- The government is speeding up cyber measures through legislation and ministry coordination

1 Attacks: Detected by CSC's WAF※1

Jul–Sep: ~1.8x YoY; last week of Sep: ~3x

2 Market: Leak incidents at listed firms※2

109 in Oct; Jan–Oct already a record year

3 Policy: Stronger government measures

Oct 1 Government
"Active Cyber Defense" laws partially in force

Oct 1 National Cyber Office
Unified cyber standards for critical infrastructure in force

Oct 7–9 Ministries and agencies
NPA, FSA, MIC and others jointly urged companies to act

Oct 26 Prime Minister
Ministerial meeting held; emergency package ordered

Frameworks advancing; emergency measures stepped up

※1 Number of attacks observed by CSC's WAF (CSC press releases dated August 7 and October 6, 2026)
2 Based on "Information leak and loss incidents: number of incidents in 2026" in Tokyo Shoko Research, "'Personal information leaks' at listed companies hit a record high" (November 9, 2026)

NPA: National Police Agency; FSA: Financial Services Agency; MIC: Ministry of Internal Affairs and Communications

©Cyber Security Cloud , Inc. 2026

Rising security demand and growing opportunities for CSC

- Rising cyberattacks and government action are making security ever more important for companies
- Inquiries to CSC are also increasing, expanding growth opportunities for our web security business

Changes in Security Measures Required of Companies

Scope

From certain industries and companies
to all firms handling personal data

Role

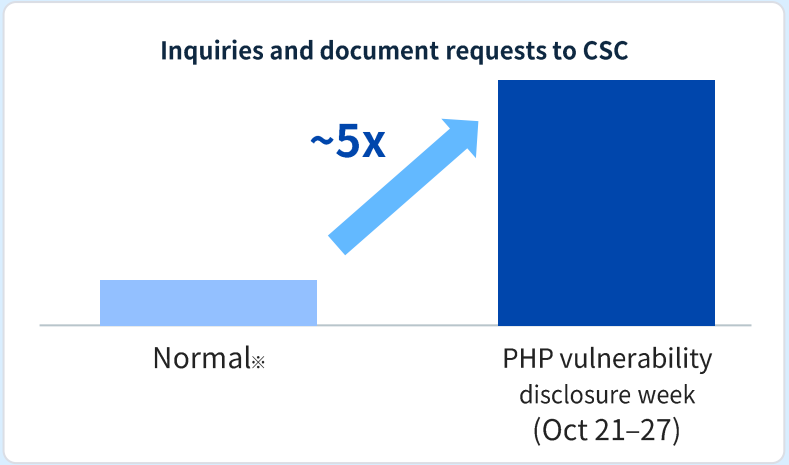

From an IT issue **to a management issue**

Timing

From periodic checks and after-the-fact response
to continuous preparedness

Web security is gaining importance

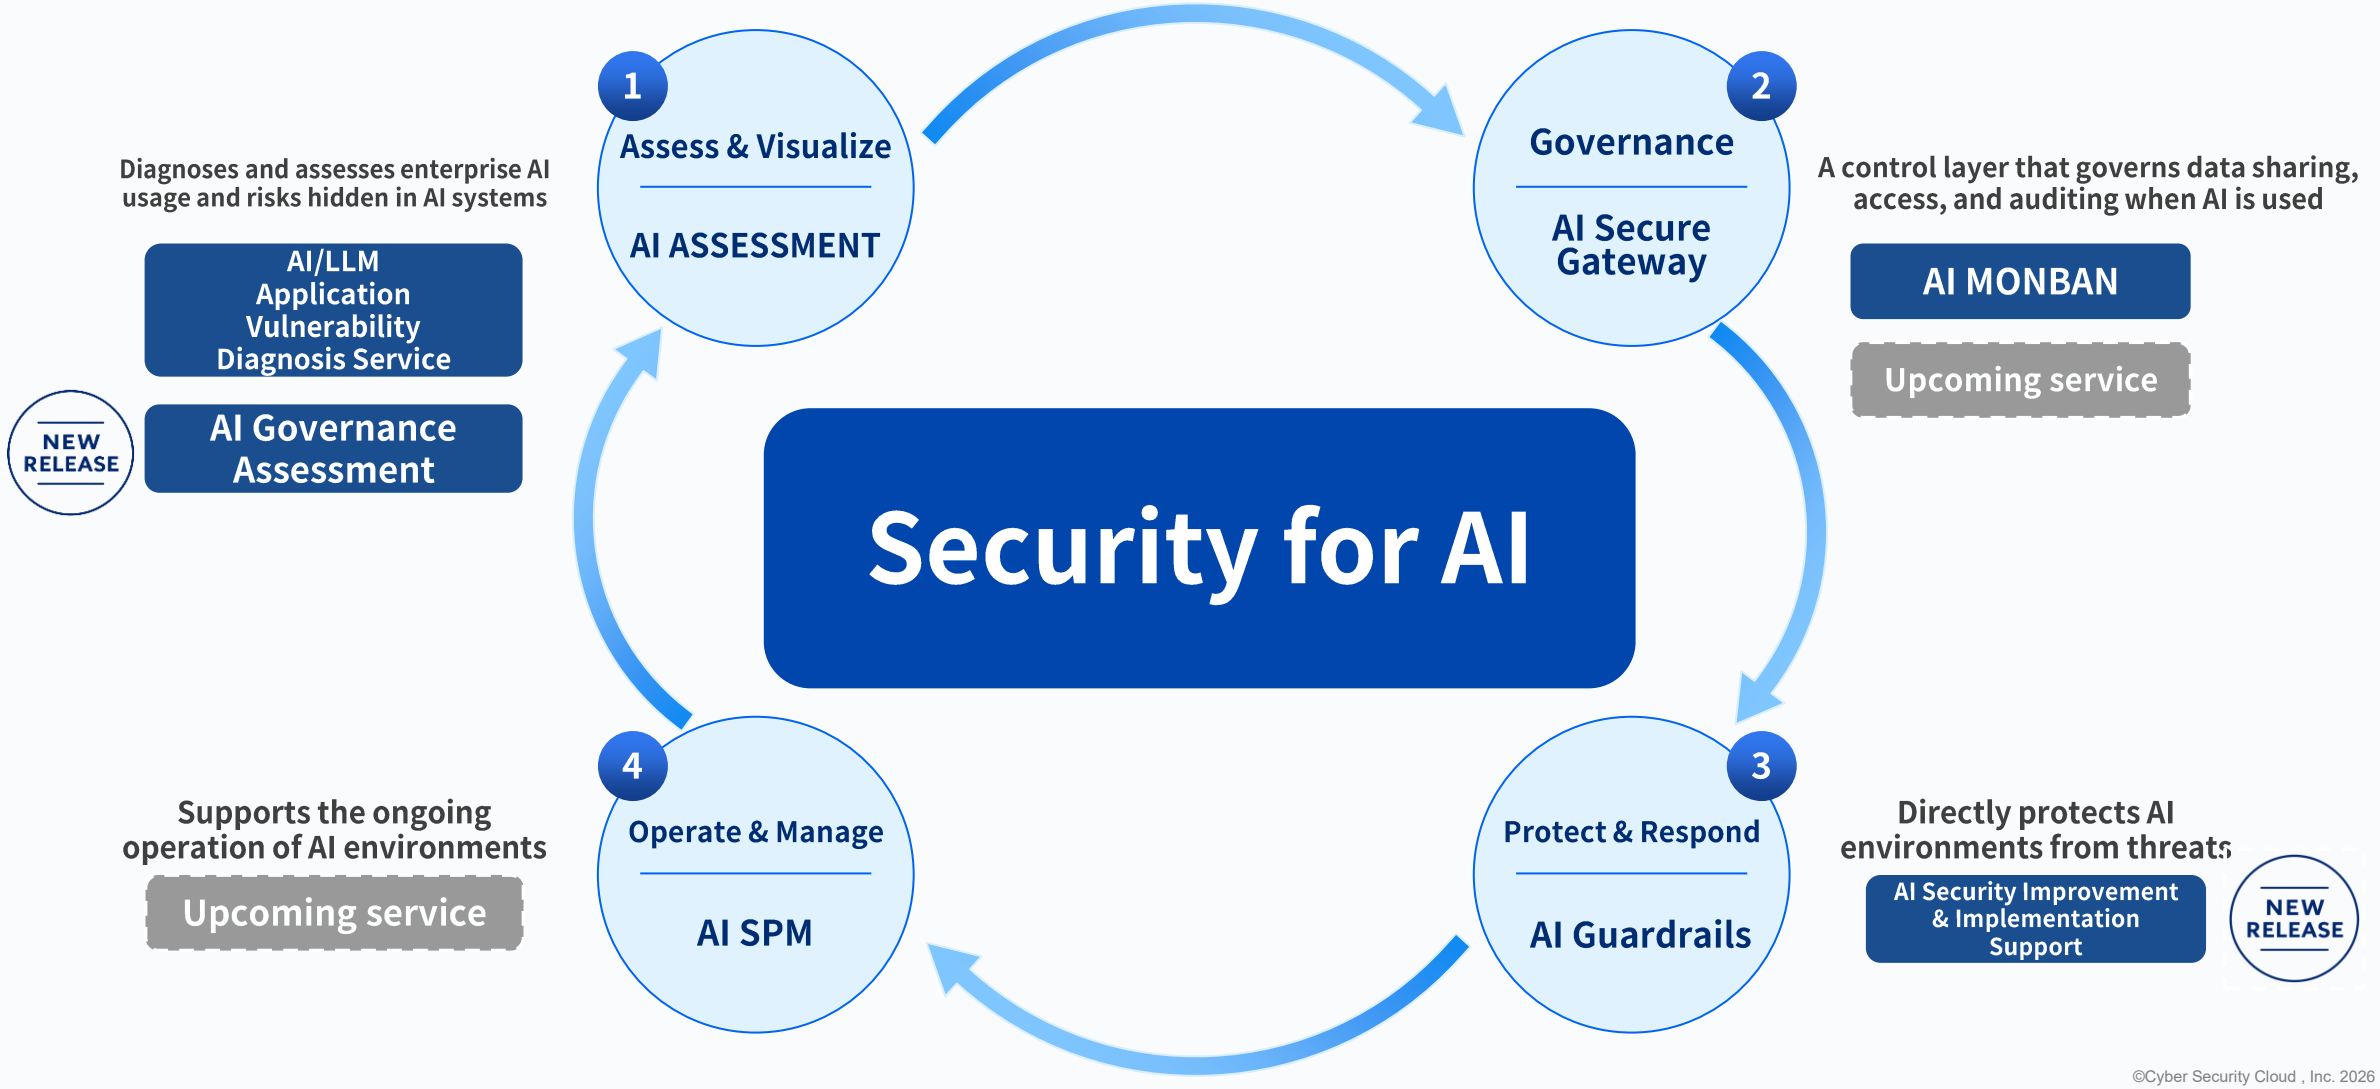

Growing opportunities

※ The normal period is based on actual figures for January–August 2026.

Service expansion into the "Security for AI" domain

- Expanding our service lineup toward one-stop "Security for AI" services
- Launched AI Governance Assessment in August 2026 and AI Security Improvement & Implementation Support in September 2026

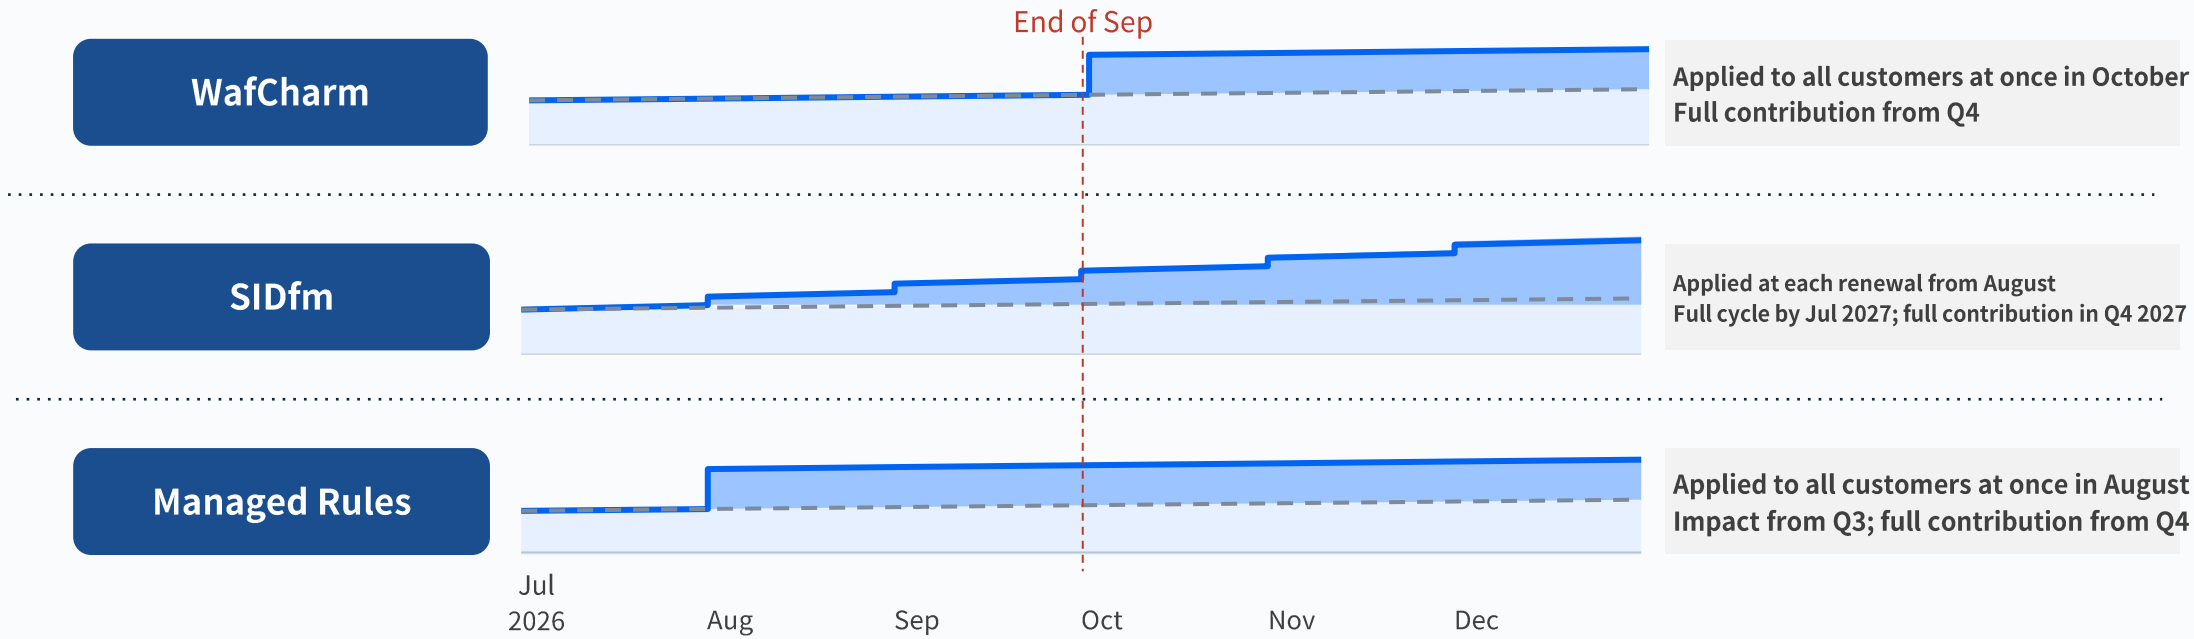

©Cyber Security Cloud , Inc. 2026

Key product price revisions and their impact on results

- Implemented price revisions for three key products: WafCharm, SIDfm, and Managed Rules
- From August 2026, the effects are being reflected in results product by product, and are expected to grow in stages

Timing of Price Revision Impact on Results by Product

Product	Timing of Impact on Results
WafCharm	Applied to all customers at once in October Full contribution from Q4
SIDfm	Applied at each renewal from August Full cycle by Jul 2027; full contribution in Q4 2027
Managed Rules	Applied to all customers at once in August Impact from Q3; full contribution from Q4

※For Shadankun, prices were left unchanged, and new mid-range pricing plans were introduced (from June 2026)

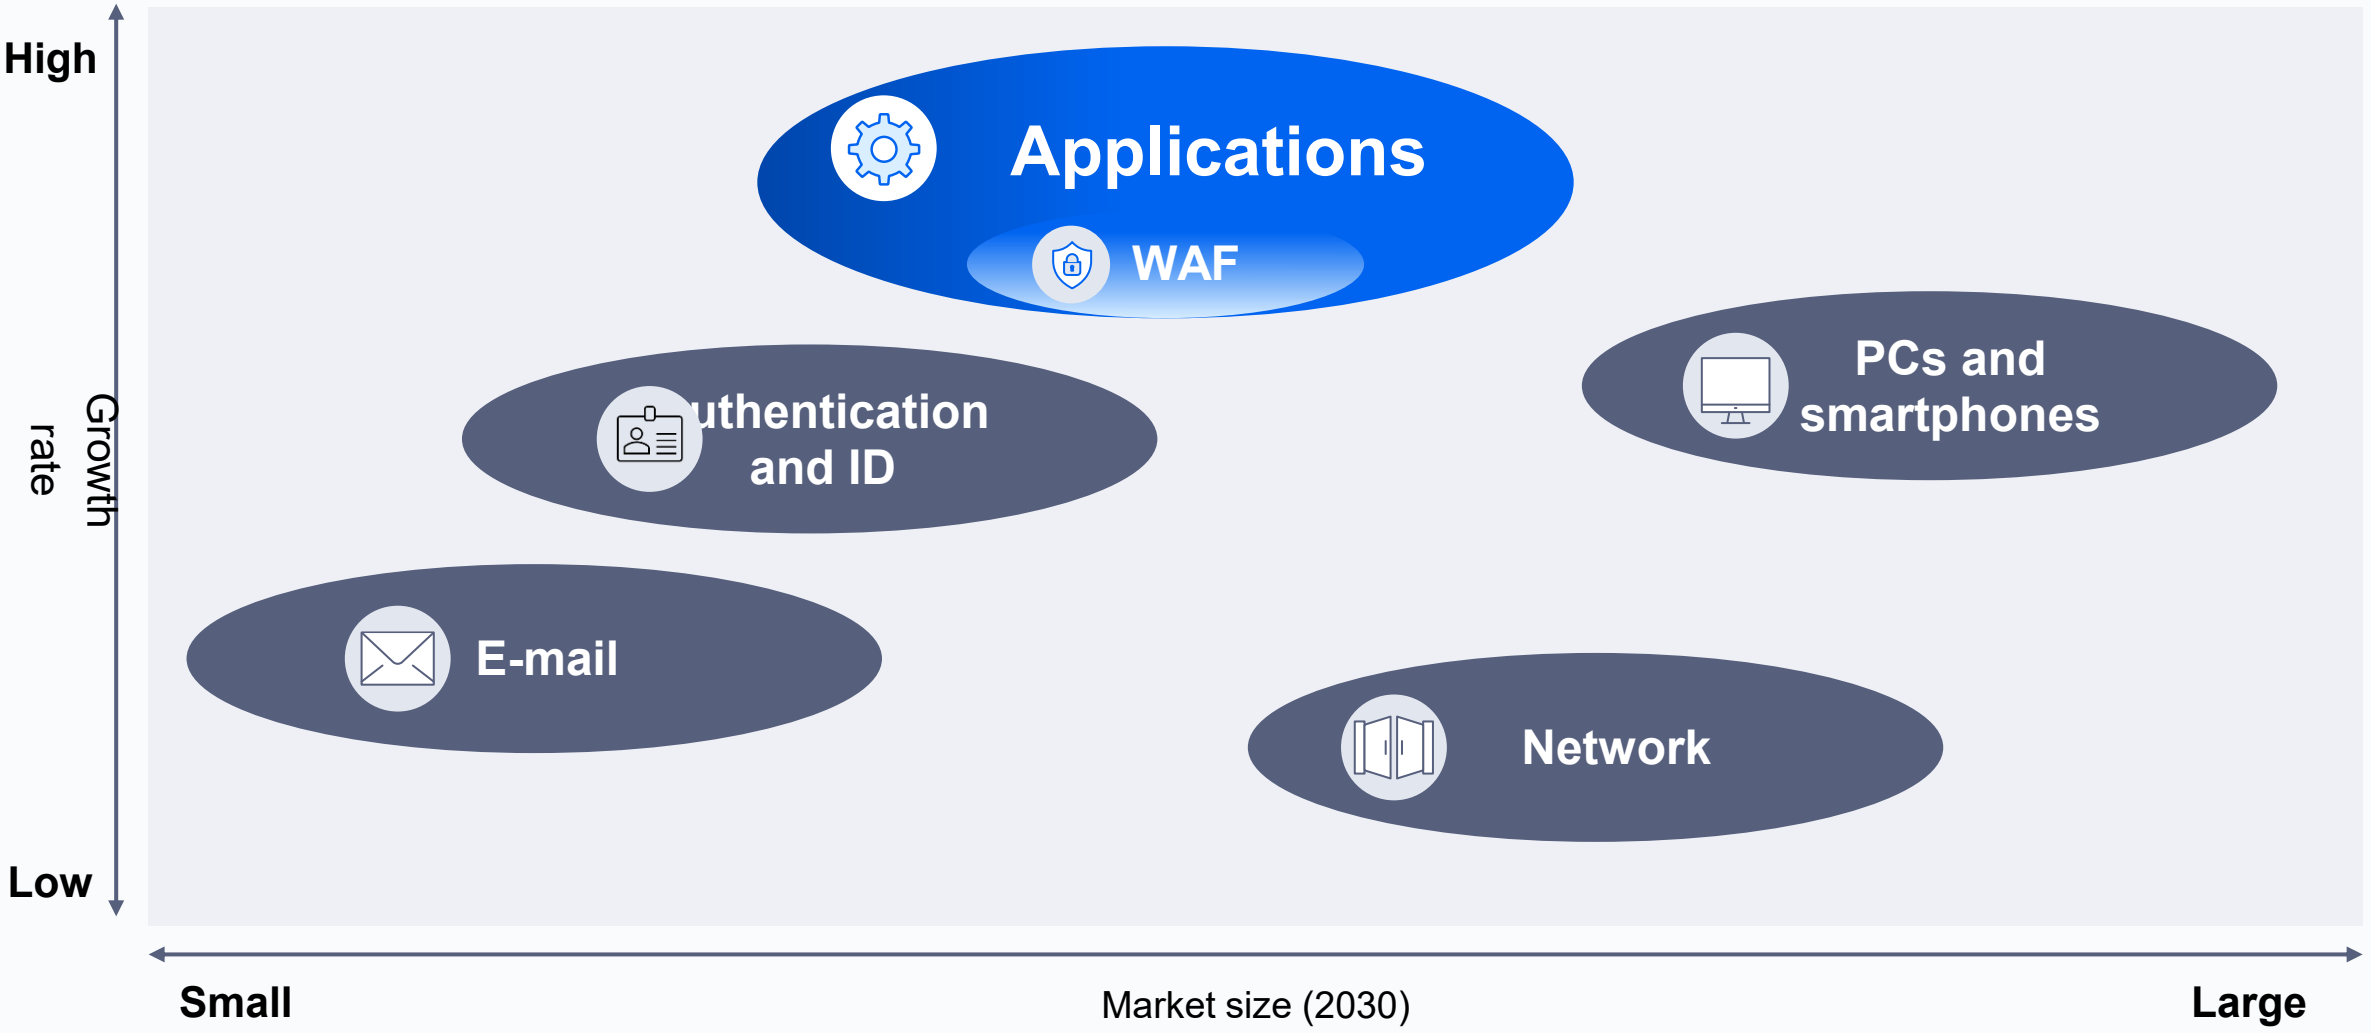

©Cyber Security Cloud , Inc. 2026

4 Growth Strategy (Reference)

©Cyber Security Cloud , Inc. 2026

CSC's Main Arena in the Cybersecurity Market

CSC is expanding its business domains in the area of applications, starting from WAF, its previous main arena. CSC aims to achieve continued growth in the domain with a relatively high growth rate in the cybersecurity market.

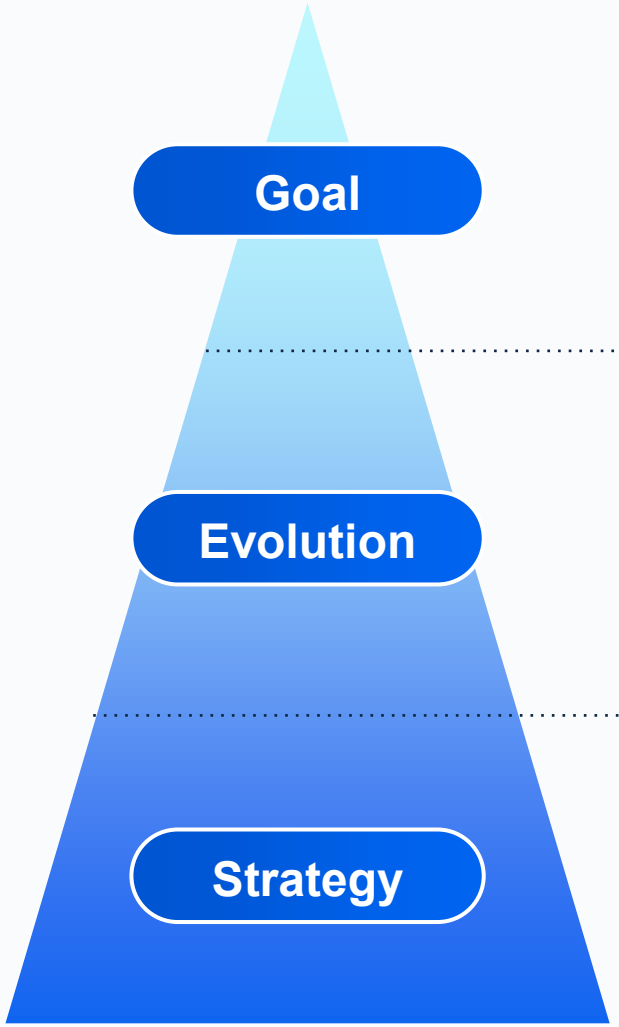

*Prepared by CSC based on various market research reports

©Cyber Security Cloud , Inc. 2026

Growth Policy and Implementation Strategy for 2030

CSC will accelerate growth through a combination of product enhancement and the transition to comprehensive solutions, making itself number one in the field of application security.

Revenue **20.0 billion yen**

Operating Profit **4.0 billion yen**

Being number one in application security

Strengthening products → **Shifting to solution-based value provision**

Maximization of LTV

1. **Expansion of product line**
2. **Deepening the value provided with products and operation services**
3. **Intensive investment in AI security**
4. **Acceleration of the overall growth through M&A**

©Cyber Security Cloud , Inc. 2026

Business Growth Model Centered on the Maximization of LTV

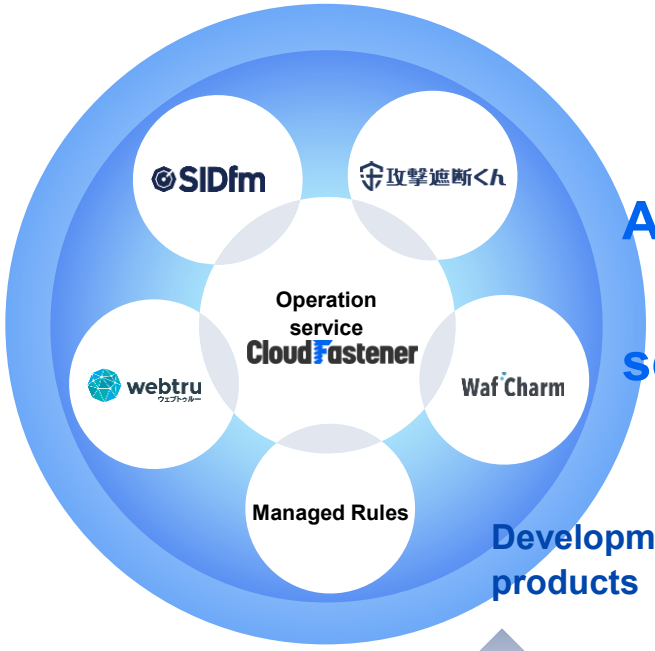

CSC will establish a growth model to push forward with integrated initiatives which range from the creation of customer touch points to the enhancement of the value it provides and the maximization of LTV.

Creation of customer touch points

- Vulnerability assessment
- Addressing damage from cyberattacks
- Consulting

and more

Maximization of core domains

Acceleration of cross-selling/upselling

Development of new products

Provision of added value

- Secure development support
- Security education
- Support for security human resources

and more

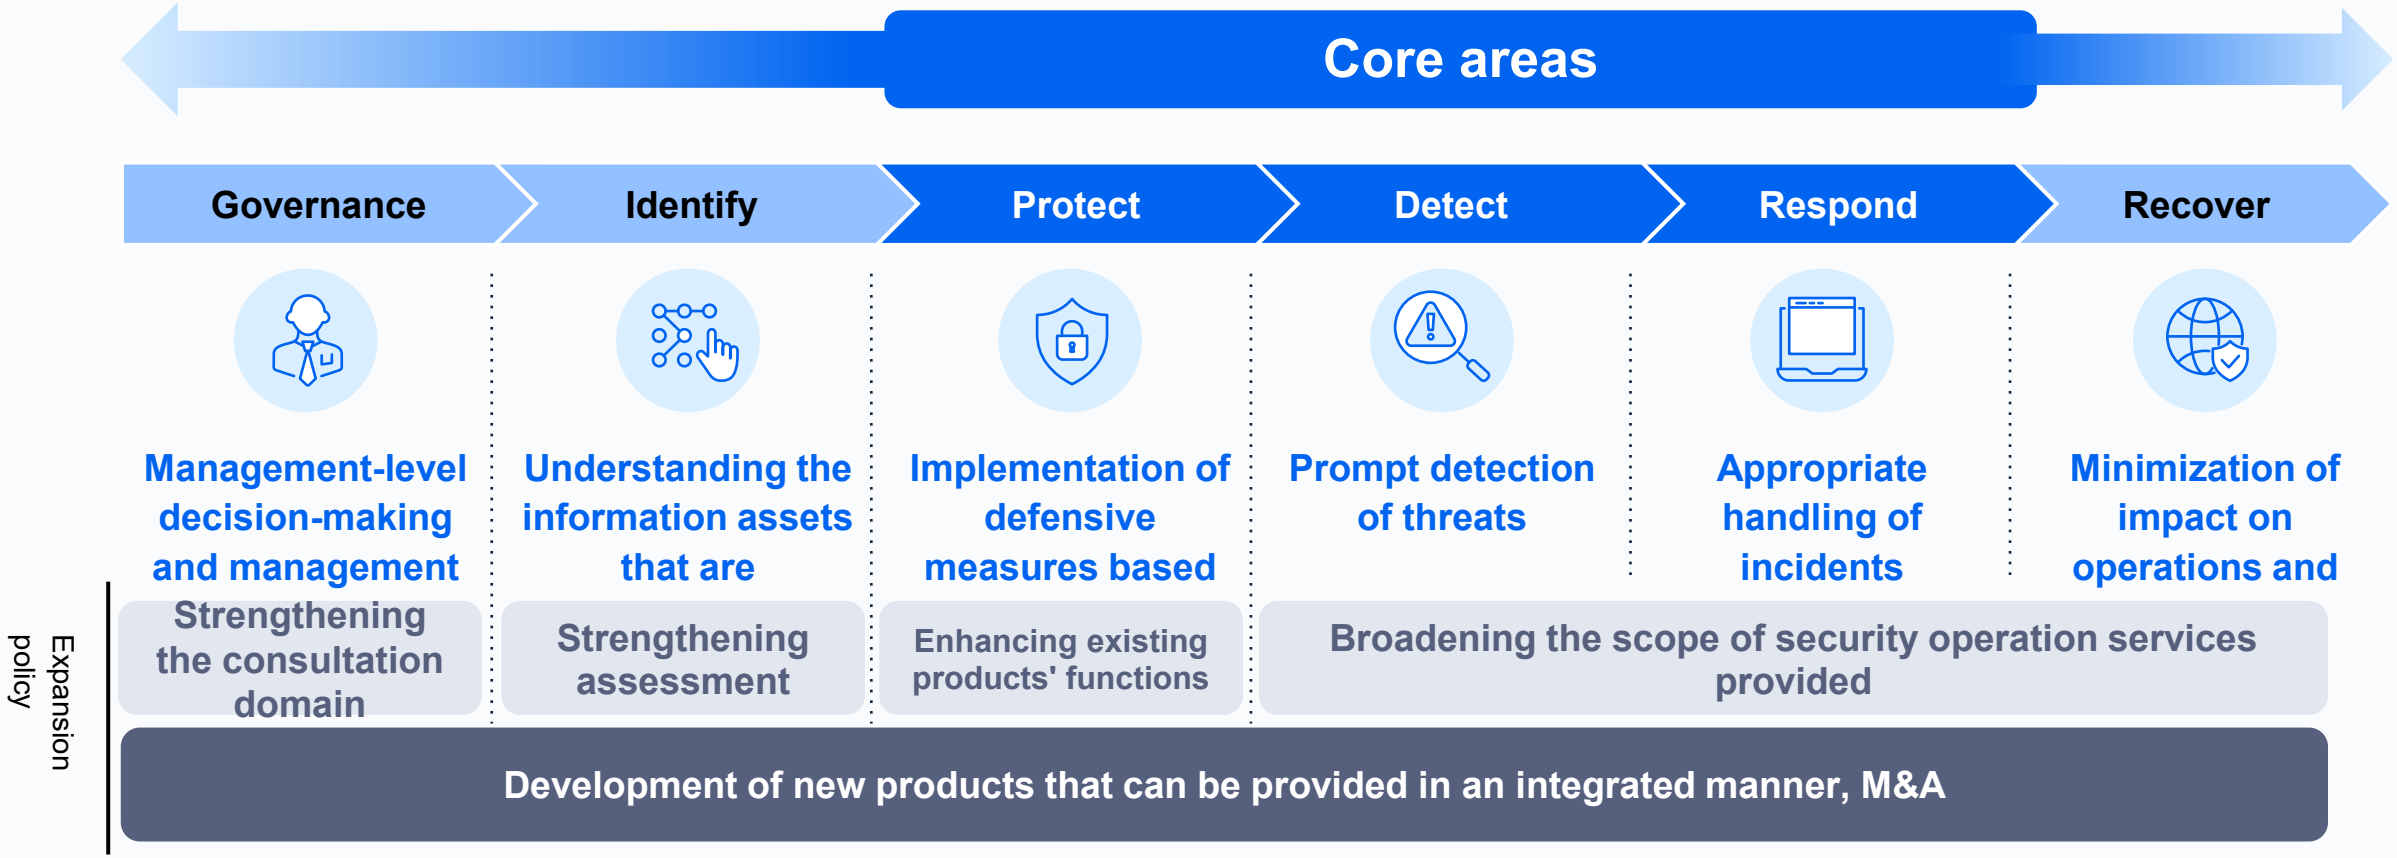

Enhancement | **Automation** | **Development of new services**

AI platform

©Cyber Security Cloud , Inc. 2026

Strategy (1): Expansion of the Product Line

CSC will expand the value it provides from core domains to the overall value chain.
CSC will cover a wide range of domains to cater to the needs of diverse customers.

©Cyber Security Cloud , Inc. 2026

Strategy (2): Deepening Value Provided via Products and Operation Services

CSC will shift to a high value-added model by integrating products and operation services and changing its product structure into a structure that facilitates cross-selling and upselling.

Initiatives to maximize the number of high-ARPU customers

ARR 10 million yen+

48 companies (December 31, 2025)

Aim for more than 500 companies

Specific measures

- Integrating brands to make them known as a single brand and unify the leading line
- Establishing a high value-added model bundling multiple products and operation services
- Designing a pricing model commensurate with the value provided

©Cyber Security Cloud , Inc. 2026

Strategy (3) Intensive Investment in AI Security

- We are advancing three key initiatives: enhancing security through AI, developing services to ensure the safe use of AI, and promoting company-wide adoption of AI
- Driven by new security needs in the AI era, we aim to create value through AI

1 AI for Security

Incorporate AI into existing products to improve defense accuracy and operational efficiency

攻撃遮断くん
Waf Charm

Improvement of defense accuracy through AI analysis and prediction

CloudFastener

Streamlining operations through AI triage and automation

Improvement of defense accuracy × Maximization of operational efficiency

2 Security for AI

Develop new security services to address new risks associated with the expansion of AI utilization

AI Security Posture Management
Visualization and management of AI utilization

AI Secure Gateway
Protection and control of AI agents

AI Guardrails
Defense layer for AI environments

Ensure safety of AI utilization × Minimize risk

3 AI-Native Organization

Leverage AI across the company to improve productivity

Development
Business innovation toward AI-DLC (AI-Driven Development Lifecycle)

Security Operations
Vulnerability detection and automated response for codebases and environments, threat analysis and investigation, knowledge utilization

Corporate
Business automation, knowledge sharing, internal assistants

Improve productivity × Create innovation

AI Trust Board

Maximizing the value of AI while ensuring reliability

A decision-making and trust framework underpinning the entire AI strategy

©Cyber Security Cloud , Inc. 2026

Strategy (4): Acceleration of Overall Growth through M&A

It is necessary to accelerate growth through M&A to quickly become number one in application security and achieve revenue of 20.0 billion yen.
CSC aims to enhance the value it provides and reinforce its earnings structure instead of just increasing sales and expanding its customer base.

Purposes of M&A

Goal	Leverage to enhance the value of business
Maximization of core domains	Acquiring services based on the premise of cross-selling and simultaneously improving ARPU and profitability
Creation of customer touch points	Acquiring a customer base and sales channels to accelerate expansion to new customers and new markets
Provision of added value	Acquiring high-level functions and expertise to increase differentiation and profitability

Implementation policy

Aim to create synergy aligned with CSC's business growth model

Expect growth to continue after the M&A toward the achievement of revenue of 20.0 billion yen by 2030.

Ensure strict valuation discipline to ensure contribution to profit is likely without posting goodwill impairment in principle.

©Cyber Security Cloud , Inc. 2026

Strategy (5): Statuses of the Growth of Businesses After M&A

Through a total of three M&A activities, CSC has reinforced its foundation for the growth of business and steadily achieved revenue, profit and customer acquisition targets.

©Cyber Security Cloud , Inc. 2026

Corporate Profile

Company name	Cyber Security Cloud, Inc.
Date of establishment	August 11, 2010
Representatives	Toshihiro Koike, Representative Director, President, and CEO Yoji Watanabe, Representative Director and CTO
Location	13th floor of JR Tokyu Meguro Bldg., 3-1-1 Kamiosaki, Shinagawa-ku, Tokyo
Business description	Development and provision of cyber security services
Group companies	Cyber Security Cloud Inc. (USA) Cyber Security Cloud Pte. Ltd. (Singapore) Generative Technology Inc. DataSign Inc

Corporate Philosophy

To create a secure cyberspace that people around the world can use safely

©Cyber Security Cloud , Inc. 2026

Our Management Team

A management team with extensive experience and deep knowledge of cloud security technologies and SaaS development to drive growth

Representative Directors

President and CEO Toshihiro Koike

- Born in 1983. Graduated from the Faculty of Law, Konan University
- 2006 Joined Recruit HR Marketing Kansai (now Recruit)
- 2016 Appointed COO and Director of the Japanese subsidiary of AppSocially Inc. of the U.S., a communication tool SaaS developer
- 2018 Founded ALIVAL Corporation (now M&A Navi)
- 2021 Appointed Representative Director, President, and CEO of the Company

CTO Yoji Watanabe

- Born in 1975. Graduated from the School of Science and Technology, Meiji University
- Engaged in R&D of cloud systems, real-time distributed processing, and anomaly detection at a major IT company
- 2016 Joined the Company; served as CTO and Director
- 2021 Appointed Representative Director and CTO

Director

Director and CFO Masafumi Kurata

- Certified Public Accountant. Joined the Company in 2017 after working for Taiyo LLC
- 2019 Appointed Director

Executive Officer

Executive Officer, Head of Global Strategy Hayato Kiriyama

- Engaged in the security business at Amazon Web Services Japan G.K.
- Visiting Associate Professor, Graduate School of Management, GLOBIS University (current position)
- 2024 Joined the Company. Appointed CEO of Cyber Security Cloud Pte. Ltd. (Singapore subsidiary) (current position)

Outside Directors

Outside Director Hiroshi Kurihara

- Served as President and Representative Director of Fuji Xerox Co., Ltd.
- Chairman, Japan Telework Association (current position)

Outside Director Yoshinori Ikura

- Attorney at law. After working at AZX Law Office and Kairos Sogo Law Office, became Representative of Ikura Sogo Law Office (current position)

Our Characteristics (1) Domestically Produced, Area-Specific, Cloud-based Products

Specializing in the web security domain and focusing on domestically produced products and extensive support, we quickly gained customers.

Utilizing accumulated data and customer feedback in our development efforts, we provide multiple products with high defensive performance, reliability, and security.

Data

By taking advantage of the first-mover advantage and cloud computing, data has been accumulated quickly.

Structure

CSC has established a system in which all development, operation, and support operations are performed in-house in Japan. Support is available in Japanese 24 hours a day, 365 days a year.

Product recognition

Continues to hold the largest share of the Japanese market and to be highly recognized as a product from a publicly listed company

High defensive performance

An attack detection technology developed based on large amounts of data was incorporated into the product.

Customer needs-driven product development

The in-depth knowledge gained from ongoing relationships with customers and our own one-stop-shop system is reflected in our product development efforts.

Diverse proposals utilizing multiple products

Providing combinations of the best products for each customer's server environment

Achievements (example)

WafCharm

Number of users: 1,296
Churn rate※2: 0.97%

Profit growth amid aggressive investment

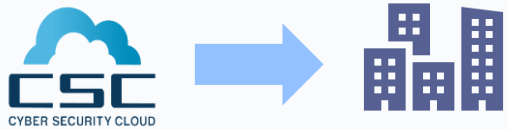

※1 Calculated based on the average monthly MRR churn rate over the last 12 months (MRR lost in the month ÷ MRR at the end of the previous month)
※2 Calculated based on the average monthly user churn rate over the last 12 months (users whose billing ended in the month ÷ paying users at the end of the previous month)

©Cyber Security Cloud , Inc. 2026

Our Characteristics (3) Diverse Sales Channels Worldwide

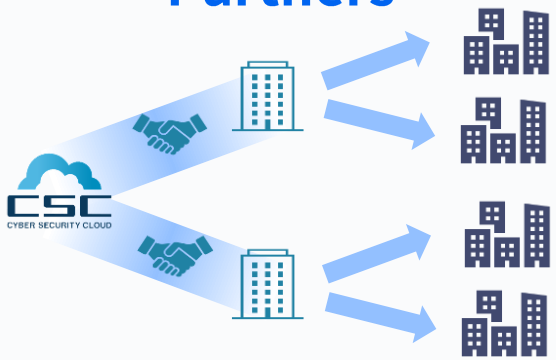

Direct sales

Listening to customer requests while providing careful support

- A strong team of experienced sales and marketing professionals
- Track record with approx. 3,000 companies

Partners

Ability to reach customers who are otherwise inaccessible to CSC

- Partner network of over 200 companies
- Robust relationships with AWS Premier Tier Services Partners

Marketplace

Users around the world can make purchases at any time

- Used in over 100 countries worldwide
- Recipient of the "Marketplace Partner of the Year – APJ" award

By leveraging multiple sales channels, CSC can deliver its products to a broader range of customers

©Cyber Security Cloud , Inc. 2026

Companies That Have Used Our Services

Security needs are expanding for businesses of all sizes and types in all industries, leading to a wide range of companies using CSC's products.
