1. Qualitative Information on Financial Results for the Quarter under Review

(1) Explanation of Operating Results

During the first nine months of the fiscal year under review (April 1, 2025 to December 31, 2025), the Japanese economy showed signs of a moderate recovery with the employment and income environment improving. On the other hand, the outlook remains uncertain due to the impact of rising prices, exchange rate fluctuations, and U.S. trade policies.

In the information services industry, to which the Group belongs, IT investment has remained solid, with the increased application of generative AI also being advanced. Furthermore, there is a trend towards cloud migration and the opening up of legacy systems. On the other hand, personnel costs have been increasing due to rising external staffing expenses, wage hikes to secure talent, and others, and competition in the mid-career recruitment market has become increasingly severe. In this environment, the Group will continue to respond flexibly to diversifying customer needs by focusing on developing advanced IT personnel and promoting mid-career recruitment of work-ready personnel, implementing PoC initiatives involving generative AI, utilizing near-shore operations, and creating synergies with subsidiaries. In addition, the Group will continue to expand the existing client base and acquire new clients by promoting IT full outsourcing and other measures, which provide comprehensive support for the IT lifecycles of the clients.

In the bicycle-parking industry, although the timing of opening of new bicycle parking facilities associated with urban redevelopment varies, a certain level of demand is expected for unattended bicycle parking lots due to labor shortages and the replacement of aging equipment. The Group will continue to strive for steady order acquisition, leveraging its strengths such as the “ECOPOOL” monthly bicycle parking management system (which addresses labor shortages), consulting capabilities cultivated through extensive experience, and high-quality service. Moreover, with the aim of enhancing profitability in recent years, the Group has been establishing a robust financial foundation by implementing various strategies such as revising bicycle parking fees, promoting initiatives aligned with municipal strategies, internalizing outsourced operations, and reducing costs through the utilization of IT technology. Moving forward, the Group intends to further accelerate efficient bicycle parking operation through data-driven strategies, specifically by implementing flexible fee adjustments based on established pricing models and rationally deploying parking facilities through the analysis and utilization of bicycle parking data.

During the first nine months of the fiscal year under review, net sales increased slightly despite the completion of a large project in the IT-related business (the System Development Business and the Support and Service Business). On the other hand, in the Parking System Business, although bicycle parking lot usage remained steady, revenue declined as equipment sales failed to reach the high level of the same period in the previous year. On the profit side, while the Company implemented price revisions in both businesses, profit decreased year on year due to factors including inability to fully offset the completion of highly profitable large-scale projects and continued delays in taking on projects at subsidiaries in the IT-related business, and one-off costs in addition to decreased equipment sales in the Parking System Business. Furthermore, as part of company-wide initiatives, the Group continued investments in actively promoting human capital management, including wage increases, and new service development in the final year of its Medium-Term Management Plan, “Vision 2026.” As a result, profit decreased year on year.

As a result, net sales for the first nine months of the fiscal year under review were 22,482 million yen (up 1.3% year on year), operating profit was 1,768 million yen (down 18.8% year on year), ordinary profit was 1,794 million yen (down 18.7% year on year), and net profit attributable to owners of parent was 1,253 million yen (down 16.2% year on year).

Results by segment for the first nine months of the fiscal year under review are as follows.

System Development Business

Although the Company secured new projects such as expansion of application maintenance for an insurance company, introduction of a cloud-based workflow system for a finance company, and the winning of application maintenance and defining of system requirements for overseas offices for a construction company, net sales were flat year on year due to the completion of multiple large-scale projects in the previous period and the Company’s strategic withdrawal from some customers. On the profit side, while price negotiations with customers continued, costs increased due to employee wage increases for securing talent and appropriate responses to labor cost transfer requests from subcontractors, as well as the impact of the completion of highly profitable large-scale projects, resulting in a year-on-year profit decrease. As a result, net sales were 9,325 million yen

(up 1.1% year on year) and segment profit was 1,296 million yen (down 4.2% year on year).

Support and Service Business

A year-on-year increase in revenue was achieved by securing projects such as a support desk for a retailing company, and infrastructure development and operation for several insurance companies. On the profit side, profit declined slightly due to factors similar to those in the System Development Business, including continued delays in taking on projects at subsidiaries, in addition to increased personnel costs and a rise in external staffing expenses. As a result, net sales were 7,268 million yen (up 4.1% year on year) and segment profit was 763 million yen (down 1.8% year on year).

Parking System Business

Revenue from bicycle parking lot usage remained steady, thanks in part to the effect of the revision of the fees. On the other hand, equipment sales fell short of the level of the same period in the previous year, when a large project was secured, although several new projects were secured including orders for replacement of equipment. On the profit side, although the profitability of self-operated bicycle parking lots has improved, a year-on-year profit decrease was recorded. This was due to costs for network line changes following the end of a telecom provider's service and investments in next-generation bicycle parking lot development, in addition to decreased equipment sales. As a result, net sales were 5,852 million yen (down 1.8% year on year) and segment profit was 1,291 million yen (down 9.8% year on year).

(2) Explanation of Financial Position

Assets at the end of the third quarter under review decreased 200 million yen from the end of the previous fiscal year to 15,895 million yen. The main items of decrease were notes and accounts receivable – trade, and contract assets of 266 million yen. The main item of increase was work in process of 156 million yen. Liabilities decreased 517 million yen from the end of the previous fiscal year to 7,724 million yen. The decrease was mainly due to provision for bonuses of 527 million yen, income taxes payable of 434 million yen, accounts payable – trade of 116 million yen, and provision for share-based payments (non-current) of 132 million yen. The main items of increase were retirement benefit liability of 230 million yen, provision for share-based payments (current) of 182 million yen, and short-term borrowings of 150 million yen. Net assets increased 317 million yen from the end of the previous fiscal year to 8,171 million yen, and the equity ratio increased from 48.4% at the end of the previous fiscal year to 50.9%.

(Application of Accounting Specific to Preparation of Quarterly Consolidated Financial Statements)

Calculation of Tax Expense

For tax expense, the Company reasonably estimates the effective tax rate after tax effect accounting is applied to profit before income taxes for the consolidated fiscal year including the third quarter of the fiscal year under review, and calculates the tax expense by multiplying profit before income taxes or loss before income taxes by the estimated effective tax rate.

However, if the calculation of tax expense using the estimated effective tax rate leads to significantly irrational results, the statutory effective tax rate is used.

Independent Auditor's Interim Review Report on Quarterly Consolidated Financial Statements

February 6, 2026

To the Board of Directors
NCD Co., Ltd.

Crowe Toyo & Co.
Tokyo office

Shigeki Tsujimura, CPA
Designated Partner,
Engagement Partner

Kiyofumi Miyake, CPA
Designated Partner,
Engagement Partner

Auditor's Conclusion

We have reviewed the accompanying quarterly consolidated financial statements of NCD Co., Ltd. and its consolidated subsidiaries (the "Group") which comprise the quarterly consolidated balance sheet as of December 31, 2025, the quarterly consolidated statements of income, and comprehensive income for the nine month period then ended, and the related notes included in the "attachment" of Financial Results.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying quarterly consolidated financial statements are not prepared, in all material respects, in accordance with Article 4 (1) of Standards for Preparation of Quarterly Financial Statements of the Tokyo Stock Exchange, Inc. and accounting principles generally accepted in Japan for quarterly financial statements, applying the provisions for reduced disclosures as set forth in Article 4, Paragraph 2 of the Standards.

Basis for Auditor's Conclusion

We conducted our review in accordance with review standards for interim financial statements generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Review of the Quarterly Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our review of the financial statements in Japan, including provisions applicable to audits of financial statements of public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that we have obtained evidence to provide a basis for our conclusion.

Management's and the Audit & Supervisory Committee's Responsibilities for the Quarterly Consolidated Financial Statements

Management is responsible for the preparation of these quarterly consolidated financial statements in accordance with Article 4 (1) of Standards for Preparation of Quarterly Financial Statements of the Tokyo Stock Exchange, Inc. and accounting principles generally accepted in Japan for quarterly financial statements, applying the provisions for reduced disclosures as set forth in Article 4, Paragraph 2 of the Standards, and for designing and operating such internal control as management determines is necessary to enable the preparation of quarterly consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the quarterly consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern and disclosing, as required by Article 4 (1) of Standards for Preparation of Quarterly Financial Statements of the Tokyo Stock Exchange, Inc. and accounting principles generally accepted in Japan for quarterly financial statements, applying the provisions for reduced disclosures as set forth in Article 4, Paragraph 2 of the Standards, matters related to a going concern.

The Audit & Supervisory Committee is responsible for overseeing the duties of directors in designing and operating the Group's financial reporting process.

Auditor's Responsibilities for the Review of the Quarterly Consolidated Financial Statements

Our objective is to issue an auditor's interim review report that includes our conclusion from an independent standpoint.

As part of a review in accordance with review standards for interim financial statements generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the interim review. We also:

- Make inquiries, primarily of management and persons responsible for financial and accounting matters, and apply analytical and other interim review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in Japan.
- If we determine that a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern, then we conclude, based on the evidence obtained, on whether anything has come to our attention that causes us to believe that the quarterly consolidated financial statements are not prepared in accordance with Article 4 (1) of Standards for Preparation of Quarterly Financial Statements of the Tokyo Stock Exchange, Inc. and accounting principles generally accepted in Japan for quarterly financial statements, applying the provisions for reduced disclosures as set forth in Article 4, Paragraph 2 of the Standards. Additionally, if we conclude that a material uncertainty exists, we are required to draw attention in our auditor's interim review report to the related disclosures in the quarterly consolidated financial statements or, if such disclosures are inadequate, to express a qualified conclusion or adverse conclusion. Our conclusions are based on the evidence obtained up to the date of our auditor's interim review report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate whether anything has come to our attention that causes us to believe that the quarterly consolidated financial statements are not prepared in accordance with Article 4 (1) of Standards for Preparation of Quarterly Financial Statements of the Tokyo Stock Exchange, Inc. and accounting principles generally accepted in Japan for quarterly financial statements, applying the provisions for reduced disclosures as set forth in Article 4, Paragraph 2 of the Standards.
- Obtain evidence regarding the financial information of the entities or business activities within the Group as a basis for expressing a conclusion on the quarterly consolidated financial statements. We are responsible for the direction, supervision and review of the quarterly consolidated financial statements. We remain solely responsible for our conclusion.

We communicate with the Audit & Supervisory Committee regarding, among other matters, the planned scope and timing of the interim review and significant review findings.

We also provide the Audit & Supervisory Committee with a statement that we have complied with the ethical requirements regarding independence that are relevant to our review of the financial statements in Japan and communicate with them all relationships, other matters that may reasonably be thought to bear on our independence, and where applicable, measures taken to eliminate inhibiting factors or apply safeguards to reduce them to an acceptable level.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

Notes:

1. The original copy of the above Independent Auditor's Interim Review Report is in the custody of the Company (a company that discloses quarterly financial results).
2. The XBRL data and HTML data are not included in the scope of the Interim Review.
