Our parent company is Dainippon Printing Co., Ltd., which holds 50.77% of our voting rights. Within Dainippon Printing Co., Ltd.'s business segments, our company operates under the Smart Communication Division, specifically within the information security-related business.

Prior to executing any transaction with the parent company, internal approval procedures are conducted in accordance with those applied to other business partners. For transactions exceeding certain thresholds—such as monetary value—a committee comprising relevant internal personnel, including the Representative Director, deliberates and reviews the terms individually to prevent transactions under inappropriate conditions. Details of significant transactions with the parent company are also reported to the Board of Directors.

Furthermore, the Company has established a framework whereby significant transactions or actions that may involve a conflict of interest between the parent company and minority shareholders, as well as other matters deemed necessary, are subject to deliberation and review by a special committee composed of three or more independent outside directors.
