1. Qualitative Information on Quarterly Financial Results

(1) Explanation of Operating Results

In the domestic Internet-related market surrounding the Group, video-watching, e-commerce (online shopping) services, and Fintech-related services are expanding, continuing on a growth trend.

In addition, with robust consumption behavior, including traveling and purchasing with the COVID-19 pandemic having settled down for the time being, companies are also actively placing advertisements. Amid such situation, demand for advertising screening services is growing as consumers increasingly show interest in the validity of what is advertised.

While various related services are expected to develop in the future with further advancement in the technological innovation of the Internet, Internet security issues are becoming more serious every year, such as growing security concerns associated with the establishment and expansion of remote work and the exposure of all things to the risk of a cyberattack due to the development of IoT^{*1}. The demand for security is increasing to ensure that all Internet users can use the Internet with a sense of security.

^{*1} Abbreviation for Internet of Things. A system of connecting various objects such as buildings, cars, and electronic equipment to servers and cloud services through a network to exchange information with each other.

Under this market environment, the Group, as a comprehensive Internet security company with the management philosophy “We Guard All,” has been providing high-quality and highly efficient one-stop security services based on the strength of its “AI-human hybrid” systems.

Against the backdrop of the above, during the six months ended March 31, 2023, net sales increased as customer support on the e-commerce websites, eKYC services^{*2}, which support identity authentication required in Fintech-related services, and advertising support businesses grew.

The Group also focused on capturing existing and new demand for vulnerability diagnosis services in the cyber security business, mainly from corporate customers whose fiscal year ends in March. This initiative also contributed to higher sales. On the other hand, despite the increase in net sales, profit decreased significantly year-on-year basis due to the impact of part of the costs for establishing the new Hakata Center and the low profitability of certain large-scale projects that had lasted until the six months ended March 31, 2023. The recording of the costs for establishing the Hakata Center has been completed, and earnings are improving for low-profit projects.

^{*2} Abbreviation for electronic Know Your Customer. A system for identity authentication completed online.

As a result, for the six months ended March 31, 2023, net sales were ¥6,148.126 million (up 7.1% year-on-year), operating profit was ¥940.202 million (down 20.5% year-on-year), ordinary profit was ¥961.296 million (down 22.2% year-on-year), and profit attributable to owners of parent was ¥653.955 million (down 32.3% year-on-year).

Segment information is not provided as the Group has a single segment. Business results by type of business are as follows:

(i) SNS related support

SNS related support provides post monitoring, customer support, and reputation research for various Internet services such as social web services.

The eKYC services expanded with the expansion of customer support on the e-commerce websites, which became established during the COVID-19 pandemic, and cashless payment amid the Fintech boom, as well as stricter identity authentication.

In collaboration with Fabeee, Inc., which is engaged in the DX promotion business, we also developed an integrated system that provides support ranging from corporate DX promotion to customer support operations.

As a result, net sales increased 8.6% year-on-year to ¥3,536.428 million.

(ii) Game related support

Game related support is mainly engaged in customer support and debugging services for social games.

Net sales decreased due to the impact of the domestic game market slowdown, which lacked opportunities for big-hit titles, despite significant growth in localization business at overseas game companies.

As a result, net sales decreased 9.8% year-on-year to ¥942.464 million.

(iii) Advertisement related support

Advertisement related support provides Internet advertising screening and outsourced administration services.

Orders for advertising screening projects remained steady owing to the track record of orders and steady execution of public office projects and accumulated know-how and knowledge. To respond promptly to the growing demand for agents for advertising screening, we also opened the new Hakata Center. The system has been strengthened to enable the provision of stable services in relation to the demand from the expanding digital advertising market by focusing on developing professional human resources.

As a result, net sales increased 20.6% year-on-year to ¥790.216 million.

(iv) Cyber security

In cyber security, we mainly provide WAF^{*3}, vulnerability diagnosis, and SOC^{*4} services.

In vulnerability diagnosis, we steadily captured increased demand, mainly from corporate customers whose fiscal year ends in March, and by combining the Group's resources (such as security services and technology, engineers, consulting sales, and customers), created a synergy that can respond to many kinds of demand and requests as a one-stop solution. Taking advantage of this, we steadily increased sales through deep marketing to existing customers and new customer development.

Furthermore, we launched a new service for our software-based WAF, loading an additional country filter function that enables easy control of overseas access while expanding OS support.

As a result, net sales increased 17.5% year-on-year to ¥404.606 million.

^{*3} Abbreviation for Web Application Firewall. A security product designed to protect websites by detecting and preventing attacks that exploit vulnerabilities in web applications.

^{*4} Abbreviation for Security Operation Center. A department or professional organization that monitors the IT infrastructure of a company or organization 24 hours a day, 365 days a year to analyze threats and provide advice.

(v) Other

We mainly provide debugging services for hardware.

Our wholly-owned subsidiary, EG Testing Services, Inc., was able to make steady progress in deep marketing to existing customers and new customer development, taking advantage of its long-standing know-how and track record of trust. As a result, net sales increased 7.8% year-on-year to ¥474.410 million.

(2) Explanation of Financial Position

(i) Status of assets, liabilities, and net assets

(Assets)

The balance of current assets as of March 31, 2023 was ¥6,943.827 million, an increase of ¥433.782 million (or up 6.7%) from ¥6,510.045 million as of September 30, 2022.

This was mainly due to an increase of ¥80.201 million in cash and deposits, ¥241.984 million in accounts receivable - trade, and ¥109.104 million in other.

The balance of non-current assets as of March 31, 2023 was ¥1,788.771 million, a decrease of ¥115.226 million (or down 6.1%) from ¥1,903.997 million as of September 30, 2022.

This was mainly due to a decrease of ¥72.503 million in investments and other assets.

As a result, total assets as of March 31, 2023 were ¥8,732.598 million, up 3.8% from September 30, 2022.

(Liabilities)

The balance of liabilities as of March 31, 2023 was ¥1,843.581 million, a decrease of ¥87.700 million (or down 4.5%) from ¥1,931.282 million as of September 30, 2022.

This was mainly due to a decrease of ¥154.017 million in income taxes payable, despite an increase of ¥51.537 million in accounts payable - other.

(Net assets)

The balance of net assets as of March 31, 2023 was ¥6,889.016 million, an increase of ¥406.256 million (or up 6.3%) from ¥6,482.760 million as of September 30, 2022.

This was mainly due to the recording of ¥653.955 million in profit attributable to owners of parent, despite the payment of ¥245.399 million in dividends of surplus.

(ii) Status of cash flows

The balance of cash and cash equivalents (hereinafter, "cash") as of March 31, 2023 was ¥5,031.307 million, an increase of ¥80.201 million from ¥4,951.106 million in cash as of September 30, 2022. The status of each cash flow during the six months ended March 31, 2023 and the factors therefor are as follows.

(Cash flows from operating activities)

Net cash provided by operating activities was ¥381.496 million (compared with net cash provided of ¥651.159 million in the same quarter of the previous fiscal year).

This was mainly due to an increase of ¥242.399 million in trade receivables and ¥398.568 million in income tax paid, despite the recording of ¥961.467 million in profit before income taxes.

(Cash flows from investing activities)

Net cash used in investing activities was ¥60.246 million (compared with net cash used of ¥239.911 million in the same quarter of the previous fiscal year).

This was mainly due to the purchase of property, plant and equipment of ¥54.118 million and the purchase of intangible assets of ¥10.894 million.

(Cash flows from financing activities)

Net cash used in financing activities was ¥238.862 million (compared with net cash used of ¥138.535 million in the same quarter of the previous fiscal year).

This was mainly due to the expenditure of ¥238.862 million in dividends paid.

(3) Explanation of Consolidated Earnings Forecasts and Other Forward-Looking Information

We have revised the forecast of the full-year consolidated financial results announced on November 7, 2022. For details, please refer to the "Notice on the Revision to the Forecast of the Full-Year Financial Results" announced today (May 9, 2023).
