1. Overview of Operating Results, Etc.

(1) Overview of operating results

During the three months ended May 31, 2025, the Japanese economy showed signs of a moderate recovery driven by continued improvement in personal spending and capital investment partly due to the improving employment and income situation and the effects of various policy measures. However, there is a growing risk of an economic slump driven by US tariff policies. In addition, poor consumer confidence due to continued rise in prices has had a negative impact on personal consumption and could trigger a slump in the Japanese economy.

In the Customer Relationship Management (CRM) business, which is the Group's core business, business model transformation to a solution-based model that promises higher profit margins through the use of new technologies such as generative AI is key. In such a market environment, we are striving to improve the quality of operations and added value, while also driving the development of new business domains through expansion of customer support domains in line with diversification of customer contact points and data utilization. By accelerating the three priority measures under our Midterm Management Plan, defined as "Human Resources (Maximizing the active participation of our workforce of 40,000 employees)", "Stylization (Achieving more sophisticated data utilization)", and "Co-creation (Developing the NEW BPO areas)", we have sought to achieve sustainable growth.

During the three months ended May 31, 2025, as a stylization initiative we launched s.i.g.n., a collaborative support solution that collects and analyzes feedback from customers available both inside and outside a company in pursuit of true customer insight to ensure that no signs from customers are overlooked. Under this service, we use expertise in the utilization of customer feedback (VOC) across a range of industries that BellSystem24 has cultivated over its four-decade history of operating contact centers in multiple industries. Our VOC marketing consultants identify the feedback that truly needs to be listened to and set goals to ensure that once deeper insight into customers is gained, it is utilized correctly. We provide end-to-end support across all phases of VOC utilization, from the design of targeted VOC acquisition strategies using a broad definition that includes word of mouth and social media, to generative Al-driven data sorting and analysis, dashboard-based visualization, and operation. This is a unique collaborative support service that utilizes VOC as a key factor in enhancing corporate value to simultaneously achieve business growth and improved customer satisfaction.

As a co-creation initiative, on April 1, 2025 the Kyoto BPO Center was established by Horizon One Inc., a joint venture between BellSystem24 and Layers Consulting. Recently, in light of geopolitical risks and other factors, there has been a sharp rise in cases of BPO sites being moved back to Japan from overseas, and in connection with this, we have provided business transformation consulting and BPO in the areas of accounting and HR to many listed companies. With the establishment of the Kyoto site in addition to three sites already opened in Kumamoto City, we will work to further expand the business and offer more specialized services while achieving BCP measures.

In addition, working in collaboration with NiCE Japan Co., Ltd. ("NiCE"), in April 2025 we launched BellCloud+CX, a generative AI-equipped CX cloud-based contact center platform. This solution uses NiCE's proprietary generative AI-driven CX solution NiCE CXone Mpower in OEM form and combines it with the BellSystem24 Group's extensive operational expertise to shape a next-generation contact center platform. In addition to basic PBX functions such as telephone lines and call recording, various other features can be used on the same platform, from digital support such as omni-channel handling and AI bots, to workforce management, operator evaluation, quality control and other knowledge management aspects, and generative AI features such as translation, real-time voice recognition and call summaries. The accumulated data can then be seamlessly utilized for various measures to improve CX.

In other developments, we have launched a partnership with ITOCHU Techno-Solutions Corporation (CTC) to jointly provide digitization support for the service counters of local governments. The solution links CTC's GenAl Admin Portal for Citizen, a generative Al-driven response service that provides answers to residents, with the SmartBPO hybrid contact center service linking human operators with Al offered by the BellSystem24 Group. Provided to combine automated responses using generative Al chatbots based on information available on the official website of each local government, with personalized responses to citizen inquiries delivered by human operators, the service will improve service levels provided to residents while streamlining the operations of local government officials, supporting the shift to smart local governments.

In terms of HR initiatives, the Group was certified for a third consecutive year under the large enterprise category of the

2025 Certified KENKO Investment for Health Outstanding Organizations Recognition Program operated by the Ministry of Economy, Trade and Industry and the Nippon Kenko Kaigi. We believe that the Group was recognized for its particular focus on providing mental health support and providing opportunities to improve literacy regarding women's health, through the development of Sukkiri Bot, which helps relieve the micro stresses employees experience with the use of generative AI, the rollout of an internal Slack implementation, and the holding of internal and external seminars with themes about the unique health challenges faced by women by inviting external experts as lecturers. Moreover, we seek to contribute to the "health" of society as a whole by running Wellness no Sora, a website specializing in providing wellness-related information, and by offering Zutool, a physical condition management app based on barometric pressure forecasts that has been downloaded a total of 20 million times, utilizing the advanced expertise of our employees with medical-related qualifications. To realize a workplace where our approximately 30,000 employees of diverse backgrounds can work with peace of mind and in good health, the Group will continue to promote health and productivity management initiatives to maintain and improve employee health.

Results for each business segment are as follows.

(CRM Business)

Although revenue declined year on year, revenue improvement measures were successful, and income before taxes increased year over year.

As a result, the CRM business posted revenue of 36,521 million yen (down 0.5% year on year), and income before income taxes of 2,773 million yen (up 9.3%).

(Others)

The Others segment posted revenue of 84 million yen (down 21.1% year on year) and income before income taxes of 14 million yen (down 35.5% year on year) due to decline in revenue from the sale of content.

As a result of the above, financial results for the three months ended May 31, 2025 were revenue of 36,605 million yen (down 0.6% year on year), operating income of 2,889 million yen (up 11.1%), income before income taxes of 2,787 million yen (up 9.0%), and net income attributable to owners of the parent of 1,856 million yen (up 10.0%).

(2) Overview of financial position

(i) Assets, liabilities and equity

| | As of February 28, 2025 (Millions of yen) | As of May 31, 2025 (Millions of yen) | Change (Millions of yen) |
|--|---|---|-----------------------------|
| Total assets | 174,413 | 174,772 | 359 |
| Total liabilities | 103,576 | 103,806 | 230 |
| Ratio of equity attributable to owners of the parent (%) | 40.2 | 40.2 | _ |

Current assets increased 2,016 million yen from the end of the previous consolidated fiscal year, to 30,058 million yen, mainly due to increases of 1,184 million yen in cash and cash equivalents and 693 million yen in trade receivables.

Non-current assets decreased by 1,657 million yen from the end of the previous consolidated fiscal year, to 144,714 million yen. This was mainly due to a 929 million yen decrease in property, plant and equipment, and a 302 million yen decrease in investments accounted for using equity method.

As a result, total assets increased 359 million yen from the end of the previous consolidated fiscal year, to 174,772 million yen.

Current liabilities decreased by 7,896 million yen from the end of the previous consolidated fiscal year to 49,517 million yen, mainly due to a 10,499 million yen decline in borrowings and 841 million yen decrease in income taxes payable, despite a 2,320 million yen increase in liabilities for employee benefits and 1,189 million yen increase in other current liabilities.

Non-current liabilities increased by 8,126 million yen from the end of the previous consolidated fiscal year to 54,289 million yen, driven primarily by a 9,038 million yen increase in long-term borrowings offsetting a 885 million yen decrease in other

long-term financial liabilities.

As a result, total liabilities increased 230 million yen from the end of the previous consolidated fiscal year, to 103,806 million yen.

Equity increased by 129 million yen from the end of the previous consolidated fiscal year to 70,966 million yen, reflecting a 1,856 million yen increase in retained earnings and 359 million yen increase in common stock, partially offset by a 1,838 million yen decrease in capital surplus.

(ii) Cash flow

| | Three months ended May 31, 2024 (Millions of yen) | Three months ended May 31, 2025 (Millions of yen) | Change (Millions of yen) |
|--|--|--|-----------------------------|
| Cash flows from operating activities | 7,065 | 6,067 | (998) |
| Cash flows from investing activities | (1,367) | (99) | 1,268 |
| Cash flows from financial activities | (5,627) | (4,789) | 838 |
| Cash and cash equivalents at the end of the period | 7,291 | 8,176 | 885 |

Cash and cash equivalents at the end of the first quarter of the fiscal year under review increased 1,184 million yen from the end of the previous fiscal year, to 8,176 million yen. The cash flows in the fiscal year under review and factors relating to each are as follows.

(Cash flows from operating activities)

Net cash provided by operating activities was 6,067 million yen (as opposed to 7,065 million yen in the same period of the previous fiscal year). This mainly reflects income before income taxes of 2,787 million yen, depreciation and amortization of 2,198 million yen, an increase in payable for consumption tax of 1,065 million yen, income taxes paid of 1,698 million yen, and an increase in trade and other receivables of 717 million yen.

(Cash flows from investing activities)

Net cash used in investing activities was 99 million yen (as compared to 1,367 million yen used in the same period of the previous fiscal year). This mainly reflects proceeds from guarantee deposits totaling 431 million yen and purchase of property, plant and equipment of 240 million yen.

(Cash flows from financing activities)

Net cash used in financing activities was 4,789 million yen (as compared to 5,627 million yen used in the same period of the previous fiscal year). This primarily reflects proceeds from long-term borrowings of 11,000 million yen, proceeds from issuance of shares of 539 million yen, repayments of long-term borrowings of 12,750 million yen, dividends paid of 2,213 million yen, and repayments of lease liability of 1,671 million yen.

(3) Explanation regarding consolidated financial results forecasts and other forward-looking statements. There are no changes to the consolidated financial results forecast announced on April 9, 2025.

Forward-looking statements are based upon what the Group believes to be reasonable assumptions and involve risks and uncertainties. Please note that actual results may differ materially from the forecasts due to various key factors.

| = | | |

(5) Notes to condensed quarterly consolidated financial statements

(Notes on going concern assumption)

Not applicable.

(Segment information)

The Group's reportable segments are components of the Group for which separate financial information is available and which are subject to periodic review by the Board of Directors to determine the allocation of management resources and evaluate their performance. The Group's business segments consist of the CRM business segment and the Others business segment, and business segmentation is based on comprehensive consideration of service type and characteristics, markets and other factors.

The Group is primarily involved in the CRM business, which deals with the operation of contact centers and other operations incidental thereto.

This business accounts for the majority of the absolute amounts of the Group's reported revenue and net profit or loss and the amount of its reported assets. Accordingly, the Group's only reportable segment is the CRM business.

Internal transfers between segments are generally based on market prices.

Three months ended May 31, 2024

(Millions of yen)

| | CRM Business | Others | Adjustments and eliminations | Consolidated |
