Premium Group Co., Ltd.

## Major Renewal of "Car Premium Warranty"!

—Providing a safer and more comfortable car life  
by expanding coverage and establishing new EV plans for imported cars—

Premium Co., Ltd. (Head Office: Minato-ku, Tokyo; President and Representative Director, COO: Yoshiyuki Tsuchiya), a consolidated subsidiary of Premium Group Co., Ltd. (Head Office: Minato-ku, Tokyo; President and Representative Director, CEO: Yohichi Shibata; hereinafter "the Company"), an Auto Mobility Service Company providing comprehensive services related to automobiles, is pleased to announce that it has implemented product revisions for "Car Premium Warranty" offered to members of Car Premium Dealers. These revisions include expanding eligible vehicles, establishing new EV plans for imported cars, and significantly increasing the number of covered parts to meet changing market environments and diverse customer needs. Premium has now commenced providing this renewed service.

### ■ Background and Purpose of Revision

"Car Premium Warranty" has been utilized by many customers and affiliated dealers as a generous warranty service in the Third-party Warranties Market to prepare for unexpected troubles after purchasing a used car. Currently, under the new medium-term management plan "Change & Prove 2030," the Premium Group is promoting the establishment of an "Auto Mobility Ecosystem" to become an indispensable infrastructure for the automobile industry as a "one-and-only platformer." In this core service, following the diversification of equipment due to the higher performance of recent vehicles and the increasing demand for EVs (Electric Vehicles) and imported cars, we have decided to revise the warranty content of this product to further align with the diverse lifestyles of our customers.

### ■ Main Revision Details

(1) Expansion of eligibility by relaxing vehicle conditions

- We have significantly expanded the eligible model year conditions so that vehicles of model years that were previously ineligible can now be covered.
- By becoming an industry pioneer in handling imported EVs (Electric Vehicles), we have made it possible to provide warranties for a wider range of vehicles.

## (2) Expansion of covered parts and optimization of plan structure

- We have increased the overall number of covered parts in each plan and newly added parts such as "dash cams (genuine products)" that are highly requested by customers.
- By consolidating and fully equipping specific plans with essential items like air conditioning mechanisms and frequently failing electrical components, the service has evolved into plans that are easier to understand and choose according to customer budgets and needs.

## (3) Enhancement of imported car plans

- For imported car warranties, we have introduced highly requested multi-year plans, making a "2-year" enrollment period selectable for all plans.
- We have raised the maximum repair limit for certain plans (Imported Car High Class 1-2 year plans) from the previous 1 million yen to 2 million yen.
- By expanding the lineup of eligible vehicles and the range of target manufacturers, we have made it possible for even more imported car users to subscribe to our services.

Change category	Change item	Before revision	After revision	Remarks
Expansion of target vehicles	Eligible model years for domestic vehicles	Less than 20 years for 660cc vehicles only	<b>Less than 20 years regardless of displacement</b>	Years elapsed at the time the application is received
	Eligible model years for imported vehicles	Less than 13 years	<b>Less than 15 years</b>	Same as above
	Handling of imported EVs	Not eligible	<b>New imported EV plan established</b>	<b>In addition to major imported vehicle manufacturers, Tesla, BYD, etc. are covered</b>
Expansion of covered parts	Bronze Plan	50 items	<b>60 items</b>	-
	Silver Plan	144 items	<b>153 items</b>	<b>Covers all air conditioning mechanisms</b>
	Gold Plan	282 items	<b>300 items</b>	<b>Covers all electrical equipment and HV mechanisms</b>
	Platinum Plan	437 items	<b>461 items</b>	<b>Newly added genuine drive recorders, etc.</b>
Enhancement of imported vehicle plans	Subscription period for imported vehicle plans	Mainly 6 months or 1 year	<b>"2 years" can be selected for all plans</b>	-
	Maximum repair amount (Imported high-class 1-2 year plans)	1 million yen	<b>2 million yen</b>	<b>*Excluding 6-month plans</b>
