### **“GLOBAL WiFi®” launches new Ultra-High-Speed 5G Unlimited Plan in Vietnam.**

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota), which operates GLOBAL WiFi Business, Information and Communications Service Business, and Glamping and Tourism Business under the themes of “Connecting People, Connecting the World,” has commenced offering an Ultra-High-Speed 5G Unlimited Plan in Vietnam as of September 25.

In recent years, an increasing number of Japanese companies have expanded into Vietnam, leading to a growing presence of Japanese business professionals traveling there on business. Furthermore, rapid economic growth is driving an increase in tourists visiting vibrant urban areas and developed resort areas, creating diverse needs for internet environments including greater security, higher speeds, and larger data capacity. To meet these needs, we have prepared plans that support next-generation 5G networks in addition to the conventional 4G.

We will continue to improve our services and network quality and expand our coverage areas in order to provide a reliable communication environment around the world.

#### **• “GLOBAL WiFi®” Ultra-High-Speed 5G Unlimited Plan Service Area Expansion**

- Launch : September 25, 2025
- Website : <https://townwifi.com/price/5g/>
- Areas covered : 53 countries and regions in total, including existing and newly added areas

(Newly added areas) Vietnam

(Existing service areas) Iceland / Ireland / Mainland U.S.A. / United Arab Emirates / U.K. / Italy / India / Australia / Austria (Europe) / Oman / Netherlands / Canada / Cyprus / Greece / Guam / Croatia / Saudi Arabia / Singapore / Switzerland / Sweden / Spain / Slovenia / Thailand / Czech Republic / Germany / New Zealand / Bahrain / Hawaii / Hungary / Philippines / Finland / Brazil / France / Bulgaria / Peru / Belgium / Portugal / Macau / Malta / Malaysia / Mexico / Maldives / Mauritius / Latvia / Lithuania / Romania / Luxembourg / South Korea / Taiwan / China / Hong Kong / Republic of South Africa

Precautions :

- This Plan provides data communications even without an 5G connection by switching to 4G.
- 5G may be unavailable due to local circumstances; in such cases, 4G only is provided.
- Because the Plan uses the most up-to-date devices, customers can expect higher communication speeds compared to previous 4G devices, even when connecting via 4G.
  - \* Varies depending on location.
- If data volumes become excessive, connectivity may be restricted depending on the policies of partner carriers at the destination country or our own assessment.

• **About Vision's "communication quality" standards and "signal audits"**

Under "GLOBAL WiFi®," Vision provides global high-speed mobile communications based on information updates and verifications conducted in collaboration with partner communications carriers around the world. When adding coverage areas, communication methods, and plans, we also verify locations with "signal audits." After verifying the extent of the coverage area (signal area), including dead spots and locations where signals are blocked by buildings, etc., we measure actual communication speeds. Only if these measurements meet our own communication quality standards do we begin purchasing communications bandwidth.

■ **Outline of the GLOBAL WiFi® service**

- Service details : Mobile Wi-Fi router rental service for overseas use
- Rental fees : As low as JPY300 per day
- Service area : More than 200 countries and regions worldwide
- Application methods : Website ( <https://townwifi.com> ), airport service counters, telephone call
