Vision Inc. installs "MyCaseLabo™" at Haneda airport, allowing customers to create their own original iPhone cases.

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereinafter Vision), which operates GLOBAL WiFi Business, Information and Communications Service Business, and Glamping and Tourism Business under the themes of "Connecting People, Connecting the World," has installed "MyCaseLabo™" at Haneda Airport Terminal 3, adjacent to the "GLOBAL WiFi®" pickup lockers, allowing customers to create original iPhone cases using images stored on their smartphones. The service became begun from September 6.

"MyCaseLabo™" is vending machine-type equipment that allows customers to complete everything from uploading images to printing, all with just their smartphone. The equipment enables customers to create their own unique iPhone case with their favorite images or photos in just three minutes. They scan the QR code displayed on the screen (*1), select the image they want to use on their iPhone case, and complete the payment. Once the selection and payment are completed, the process is carried out automatically.
(*1) QR Code is a registered trademark of DENSO WAVE INCORPORATED.

Please see the link for instructions on how to use the service.   https://youtu.be/fq1qgYc9fdY

Since its launch, the service has been well received by a wide range of customers, particularly Japanese

travelers using Haneda Airport and international visitors to Japan, who value it to "capture travel memories." Please use "MyCaseLabo™" as a new way to create memorable travel keepsakes.

Vision leverages its extensive airport network, one of the largest in the industry, as a point of contact with both inbound and outbound travelers. We are steadily expanding installations to traveler-friendly locations such as airports, train stations, hotels, and tourist information centers. In addition to communication services such as Wi-Fi and SIM, we are also introducing non-communication services like "MyCaseLabo™," with the aim of further enhancing the customer experience.
