**Vision Inc. installs 11 new “GLOBAL WiFi® Rental Stations” across five major airports.**

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota), which operates GLOBAL WiFi Business, Information and Communications Service Business, and Glamping and Tourism Business under the themes of “Connecting People, Connecting the World,” has installed 11 new “GLOBAL WiFi® Rental Stations” across five major airports.

The advertisement features a blue background. At the top left, there are two gold circular medals: the first says "Japan's Overseas WiFi Rental No.1 8 years & Counting!" and the second says "23 More than million customers world wide". Below these, the text "WiFi TO GO!" is written in large white letters, followed by "Travel all over Japan with a mobile WiFi router!". In the center, a blue rental station is shown with a screen displaying the "GLOBAL WiFi Rental Station" logo and a QR code. A hand is holding a black mobile WiFi router with the same logo. A blue arrow points from the station to the router. At the bottom left, there are two footnotes: \*1: Based on total number of users and sales revenue for overseas rental Wi-Fi services (Japan to overseas) from 2016 to 2023, according to annual surveys conducted by Tokyo Shoko Research between 2017 and 2024. \*2: Total number of users for the Wi-Fi router rental service across the entire group (as of August 2025 according to Vision's research).

The newly installed airports are New Chitose Airport, Chubu Centrair International Airport, Osaka Itami Airport, Kansai International Airport, and Fukuoka Airport. By taking into account the unique characteristics of each, such as those with high tourism and inbound demand, and those serving as hubs for business and domestic travel, we are establishing a system that allows users to seamlessly secure internet access upon both departure and arrival. This initiative supports enhanced convenience and a more comfortable travel experience for users moving both domestically and internationally.

“GLOBAL WiFi® Rental Station” is a mobile Wi-Fi rental service that enables to rent and use it immediately. One device can be used in Japan as well as in 145 countries and regions worldwide. It can also serve as a mobile battery.

■ Installation locations (Chubu Centrair International Airport / Fukuoka Airport / New Chitose Airport)

**Chubu Centrair International Airport**  
Access Plaza 2F

**Chubu Centrair International Airport**  
Terminal 2, 2F  
GLOBAL WiFi counter

**Fukuoka Airport**  
International Terminal 1F  
GLOBAL WiFi counter

**New Chitose Airport**  
International Terminal 2F  
GLOBAL WiFi counter

■ Installation locations (Osaka Itami Airport / Kansai International Airport)

**Osaka Itami Airport**  
South Terminal, 1F

**Kansai International Airport**  
Terminal 1, 1F  
Arrival Lobby Central

**Kansai International Airport**  
Terminal 1, 1F  
Arrival Lobby North

**Kansai International Airport**  
Terminal 1, 4F  
Departure Lobby North

**Kansai International Airport**  
Terminal 1, 4F  
Departure Lobby South

**Kansai International Airport**  
Terminal 2

Compared to the conventional smart locker “Smart Pickup,” this is more compact and space-efficient. We plan to gradually expand its rollout going forward. It is currently installed at 6 locations: New Chitose Airport, Haneda Airport, Chubu Centrair International Airport, Osaka Itami Airport, Kansai International Airport, and Fukuoka Airport.

Looking forward, we will continue to expand installations at convenient locations for users, such as hotels and tourist information centers.

For inquiries regarding the installation of the “GLOBAL WiFi® Rental Station,” please contact us at the details below.

## What is a GLOBAL WiFi Rental Station?

### Use It Immediately After Renting

Available for daily rental and ready to use immediately after pickup.

### One Device Can Be Shared

Since multiple people can connect to the WiFi, it's more cost-effective per person.

### Works as a Power Bank

Compatible with two types: Lightning and Type-C.

### Return it at the Airport on Your Way Home

Returns available at major airports, including Narita, Haneda, and Kansai.

### ■ “GLOBAL WiFi® Rental Station” features

- A fully self-service Wi-Fi router rental available immediately on-site

After applying via the 2D code displayed on the “GLOBAL WiFi® Rental Station,” customers can receive a Wi-Fi router from the machine and start using it immediately.

- Share one device

Multiple people can connect to Wi-Fi simultaneously, so the cost per person is also cheaper.

- The device comes with a charging cable and can also be worked as a mobile battery

It supports two types: Lightning and Type-C. A minimal device that works as both Wi-Fi and a mobile battery at the same time.

- Reliable 24/7/365 customer support

Our professional staff are available 24/7/365 to assist with inquiries via LINE, phone, or email.

- Returns available across the industry's largest network of airport locations

After use, customers can return the device at 20 airports and 40 locations across Japan (one of the largest airport return networks in the industry). Returns are also available via courier from home, office, or convenience stores.

- Supports English and Traditional Chinese

To make our service accessible to international visitors to Japan, it supports Japanese, English, and Traditional Chinese. Additional languages will be added in the future.

**GLOBAL WiFi® Rental Station Special Site :** <https://townwifi.com/rentalstation/en/>

“GLOBAL WiFi®” will continue to expand touch points, including airports across the country, strive to improve our services and network quality, and expand available areas to provide a comfortable mobile Internet connection environment around the world.
