**Vision Inc. received a “B score” for the second consecutive year
in the CDP 2025 “Climate Change” survey.**

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereinafter the Company) received a “B score (Management Level)” in the climate change category in the environmental information disclosure system by CDP. This marks our second consecutive year of receiving a “B score.”

In this survey, the Company was highly evaluated for the following three points, continuing the positive assessment received in 2024.

- 1) Enhanced information disclosure: Improvement in the quality and quantity of information disclosure, including provision of detailed data on greenhouse gas emissions and clarification of risk management strategies.
- 2) Improved internal processes: Improvement in internal processes, including identification and management of environmental risks and enhancement of governance structure.
- 3) Strengthened communication with stakeholders: Effective communication of environmental strategies and initiatives through dialogue with investors, business partners, employees, and other stakeholders.

As a result, the scores for each module (excluding third-party verification) were highly rated across the board, reaching the upper management to leadership level (equivalent to a B–A score).

The “B score” attained by the Company positions us at the “Management Level” in CDP’s evaluation criteria, indicating the stage where we recognize and act upon our environmental risks and impacts. This score reflects our view of climate change as a key management issue and our continued efforts to strengthen risk management and implement concrete measures.

■ About CDP

Launched in 2000, CDP is a British charity-controlled Non-governmental Organization (NGO) that runs the global disclosure system to help investors, corporations, nations, regions, and cities manage their own environmental impacts.

The Company has set forth “Vision for the future, created with the diverse societies as a member of the planet” as its Symbiotic Growth (Vision’s Slogan). We position climate change response as one of our most critical management priorities, and are committed to contributing to the realization of a decarbonized society and the enhancement of corporate value.

■ Vision Inc. Company Profile

With the corporate philosophy of “To contribute to the global information and communications revolution” and slogan of “More vision, more success,” Vision provides services primarily in the information and communications field and makes decisions with a clear vision to help customers achieve greater success.
