## ■ Developing services tailored to domestic use

“WiFi-rental.com®” provides Wi-Fi router rental services in Japan designed to support various usage scenarios such as travel, business trips, and temporary stays.

In addition to standard delivery, we offer a variety of pickup and return options to suit customer convenience, including nationwide convenience store locations and one of the largest airport counter networks in industry. We have established an environment that enables smooth and seamless access whenever and wherever it is needed.

## ■ Same-day shipping available, 365 days a year

“WiFi-rental.com®” offers multiple support channels, including an automatic chat function via our official LINE account, to quickly respond to customer questions and problems.

Furthermore, our system enables same-day shipping for orders placed by 4:00 p.m. every day of the year. This ensures that customers can receive their Wi-Fi devices as early as the next day, even for last-minute business trips or travel.

#### ■ Pricing plans designed to meet diverse needs

We offer a variety of pricing plans based on data volume, ranging from 5GB per month to unlimited data (\*3), allowing customers to choose the plan that best suits their usage needs. In addition to our latest 5G-compatible plans, we offer triple-area-compatible devices that automatically connect to the optimal network among Japan's three major domestic carriers. This ensures a service designed with a strong emphasis on communication quality and stability. For our business clients, we also offer dedicated corporate plans, featuring bulk rentals (six or more units) and invoice-based payment options.

(\*3) Data speeds may be limited in cases of extremely high data traffic.

“WiFi-rental.com®” expresses its sincere gratitude for our customers’ continued support. We remain committed to listening closely to customer feedback and providing services that prioritize both quality and convenience, striving to be the Wi-Fi rental service of choice for even more people.
