In addition, organizations promoting tourism to Japan, including the Japan National Tourism Organization (JNTO), are scheduled to exhibit at the event. The Company will work in collaboration with these organizations to promote the development of a framework that enables the provision of a more comfortable and reliable telecommunications environment for international travelers considering visits to Japan.

### ■ Details of Our Exhibition

Through this exhibition, we will introduce the following services with the aim of increasing awareness of our telecommunications services for inbound travelers to Japan and developing new partnerships in the European region.

- “NINJA WiFi®”
- “SHOGUN SIM”
- “NINJA eSIM
- “NINJA TRAVEL SIM”
- ”World eSIM®”

In addition to the existing “NINJA WiFi®” service, we will introduce our telecommunications services that utilize physical SIMs and eSIMs, including “World eSIM®” and “NINJA eSIM.” In particular, eSIM can be provisioned instantly online without the need for physical distribution points. Leveraging this advantage, we are strengthening the deployment of this service as a flexible solution not only for visitors to Japan but also for outbound travelers from Japan and those traveling between third countries.

In the European market, we will strive to diversify our sales channels by forging new partnerships that target global travelers as well as tourists visiting Japan.

### ■ Future outlook

Through its participation in this exhibition, Vision aims to enhance its presence in the European market, strengthen collaboration with local partners, and further enhance the provision of communications infrastructure for visitors to Japan. As a company committed to “Connecting the World,” we will continue to accelerate the global expansion of our services from a worldwide perspective.
