Notice Regarding the Acquisition of Shares of AiWish Rental Guarantee

We hereby announce that we have decided to acquire all shares of AiWish Rental Guarantee Inc. (hereinafter referred to as “AiWish Rental Guarantee”) and make it a wholly owned subsidiary, as detailed below.

1. Reasons for Share Acquisition

Since our founding in 1995, we have contributed to enhancing profitability and productivity of our clients by providing information and communication services tailored to each stage of their growth.

We have built a strong corporate client base, and our Wi-Fi router rental services, including “GLOBAL WiFi®,” are widely used both domestically and internationally.

In addition, we are currently expanding the Glamping and Tourism Business to contribute to regional revitalization and provide new experiential value. We are a leading Information and Communications Service provider in Japan with a top-class track record.

AiWish Rental Guarantee provides rent guarantee and rent collection agency services primarily in Tokyo and has established a strong partnership network with building and real estate management companies.

We have provided communications and office solutions across a wide range of business fields.

Through this share acquisition, we will add credit guarantee functions in the real estate domain to our service lineup, thereby establishing a framework to provide more comprehensive support to meet our clients’ needs when they establish new locations.

In particular, by combining AiWish Rental Guarantee’s strong business foundation in the real estate domain with our sales platform, we aim to expand our services from multiple perspectives and maximize our Group value.
