Notice Regarding Business Acquisition and the Establishment of a Subsidiary

We hereby announce that we have resolved to have our newly established subsidiary acquire the inbound travel service arrangement business operated by FREEPLUS Inc., and that the business has officially commenced operations.

1. Reasons for Business Acquisition

Our Group is currently actively promoting the inbound tourism business as a new pillar of growth. We have decided to succeed to the “FREEPLUS” brand, which has built a strong customer base in the inbound tourism market since its establishment in 2007 and achieved annual sales of approximately 900 million yen, through a newly established subsidiary. We believe that this acquisition will contribute to enhancing our corporate value in the following three ways:

(1) Strengthening inbound customer acquisition and operational systems

By succeeding to the “FREEPLUS” brand, which enjoys strong recognition and trust among international travel agency networks, we will expand customer acquisition channels in our Group’s Inbound and Tourism Business. In addition, by welcoming a team of multinational professionals with expertise in the travel industry, we will establish a service operational system that meets global standards. We also aim to optimize procurement by leveraging our extensive existing supplier network, thereby enhancing service quality and transforming our business structure into a more profitable one.

(2) Maximizing synergies through strategic collaboration with the “GLOBAL WiFi Business”

By integrating our Group’s core “GLOBAL WiFi Business” with the newly acquired travel business, we will generate strong synergies.

Specifically, we will offer our “NINJA WiFi®,” a Wi-Fi rental service for foreign visitors to Japan and the digitally-based “World eSIM®” as value-added solutions bundled with travel packages to our travel agency network. We will build a system to directly reach travelers around the world via our agency sales channels and promote the global expansion of our communication services.

(3) Building trust through the integration of brand strength and financial foundation

By combining the strong brand and track record cultivated over many years by “FREEPLUS” with our Group’s solid financial foundation and governance framework as a company listed on the Tokyo Stock Exchange Prime Market, we will provide stakeholders both in Japan and overseas with greater confidence and new added value.
