“GLOBAL WiFi®” expands 5G coverage and launches 5G Unlimited Plan in Puerto Rico.

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota), which operates GLOBAL WiFi Business, Information and Communications Service Business, and Glamping and Tourism Business under the themes of “Connecting People, Connecting the World,” has commenced offering a 5G Unlimited Plan in Puerto Rico, a U.S. territory, for its overseas Wi-Fi rental service “GLOBAL WiFi®.”

Located in the Caribbean, Puerto Rico is a U.S. territory and a business hub where many North American companies have established a presence. It is also one of the world’s leading resort destinations, boasting beautiful beaches and UNESCO World Heritage cityscapes.

In recent years, Puerto Rico has strengthened its economic ties with the U.S. mainland, and demand for business travel and “workations” from Japan is expected to increase.

Against this backdrop, we have launched an Unlimited Plan utilizing the latest 5G network across Puerto Rico. This allows users in Puerto Rico to enjoy a seamless internet experience even in data-intensive situations, such as online meetings, high-definition video streaming, and social media posting.

We will continue to improve our services and network quality and expand our coverage areas to provide a reliable communication environment around the world.

• **“GLOBAL WiFi®” Ultra-High-Speed 5G Unlimited Plan Service Area Expansion**

- Launch : April 14, 2026
- Website : <https://townwifi.com/price/5g/>

○ Areas covered : 57 countries and regions in total, including existing and newly added areas

(Newly added areas) Puerto Rico (U.S. territory)

(Existing service areas) Iceland / Ireland / Mainland U.S.A. / United Arab Emirates / U.K. / Italy / India / Indonesia / Egypt / Australia / Austria (Europe) / Oman / Netherlands / Canada / Cyprus / Greece / Guam / Croatia / Saudi Arabia / Singapore / Switzerland / Sweden / Spain / Slovenia / Thailand / Czech Republic / Germany / New Zealand / Bahrain / Hawaii / Hungary / Philippines / Finland / Brazil / France / Bulgaria / Vietnam / Peru / Belgium / Portugal / Macau / Malta / Malaysia / Mexico / Maldives / Mauritius / Latvia / Lithuania / Romania / Luxembourg / South Korea / Taiwan / China / Hong Kong / Japan / Republic of South Africa

Precautions :

- This Plan provides data communications even without an 5G connection by switching to 4G.
- 5G may be unavailable due to local circumstances; in such cases, 4G only is provided.
- Because the Plan uses the most up-to-date devices, customers can expect higher communication speeds compared to previous 4G devices, even when connecting via 4G.
 - * Varies depending on location.
- If data volumes become excessive, connectivity may be restricted depending on the policies of partner carriers at the destination country or our own assessment.

• **About Vision’s “communication quality” standards and “signal audits”**

Under “GLOBAL WiFi®,” Vision provides global high-speed mobile communications based on information updates and verifications conducted in collaboration with partner communications carriers around the world. When adding coverage areas, communication methods, and plans, we always conduct meticulous on-site “signal audits.”

After verifying the extent of the coverage area (signal area), including dead spots and locations where signals are blocked by buildings, etc., we measure actual communication speeds. Only if these measurements meet our own communication quality standards do we begin purchasing communications bandwidth.

The verification is undertaken by our own overseas staff and partner companies in some areas.

There are many 5G communications carriers around the world, but at Vision, we only begin providing service in areas that meet our quality standards.

■ **Outline of the GLOBAL WiFi® service**

- Service details : Mobile Wi-Fi router rental service for overseas use
- Rental fees : As low as JPY300 per day
- Service area : More than 200 countries and regions worldwide
