【Don't Give Up on Summer Outdoor】

Vision Glamping Resort Yamanakako and Koshikano Onsen partner with SharkNinja to bring “Shark® cooling solutions to summer glamping.”

- Breaking the myth that “summer glamping has to be hot and uncomfortable.” Experience a next generation cool and comfortable stay, powered by the combination of air conditioning and High-Power Tower Fan, at the foot of Mt. Fuji and the renowned hot springs of Kirishima. -

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota) announced that “Vision Glamping Resort Yamanakako in Yamanashi Prefecture,” operated by the Company, and “Bihada no Yu Koshikano Onsen in Kagoshima Prefecture,” operated by its subsidiary, have joined SharkNinja’s “Don’t Give Up on Summer” Project. As part of this initiative, both facilities will offer Shark®’s latest High-Power Tower Fan for a limited time during the summer of 2026.

By combining fully air-conditioned dome tents with the powerful airflow of Shark®, we create a comfortable space where cool air gently envelops the entire tent. For families and guests traveling with pets who tend to avoid outdoor activities during the extreme summer heat, we offer a refreshingly cool and comfortable experience in a fully private setting. (There is no additional charge for using this service.)

■ Background : Challenging the “extreme summer heat causing people to give up on the outdoors” as a social issue

In recent years, due to summer heatwaves often described as disaster-level, an increasing number of families are giving up on travel, citing concerns that “it will be too hot or full of insects to enjoy outdoor activities and glamping.”

Even at “Yamanakako,” which is geographically a cooler summer resort situated at approximately 8 degrees Celsius lower than Tokyo, the inside of tents can still become uncomfortably warm during the day under strong sunlight.

Meanwhile, at “Bihida no Yu Koshikano Onsen” located in Southern Kagoshima, the quality of “cooling down” after enjoying the famous hot springs and tent saunas significantly influences overall guest satisfaction.

To address these challenges, both facilities have introduced Shark®’s High-Power Tower Fan, which combine overwhelming airflow, whisper-quiet operation, and top-tier safety features. By efficiently circulating cool air from existing air conditioners throughout the entire tent, we have created a comfortable space where refreshing coolness seamlessly flows wherever guests choose to relax.

■ **Features of the implemented products : “Bladeless coolness” for the entire family’s peace of mind**

We will be installing the following Shark® products in the fully private spaces (guest rooms and common areas) of each facility.

1. Shark® TURBOBLADE High-Power Tower Fan (TF200SJ)

【Facilities : Vision Glamping Resort Yamanakako and Koshikano Onsen】

Despite its powerful airflow, it delivers a gentle breeze that softly envelops the entire tent.

The airflow direction can be freely adjusted 360 degrees to circulate air throughout the room. In addition, the bladeless design provides added safety, so you don't have to worry about little fingers or your dog's fur getting caught.

At Vision Glamping Resort, we value creating a space where children can play freely and where pets can enjoy the ultimate leash-free experience. The Shark® fan’s bladeless design eliminates concerns about little fingers or pet fur getting caught, allowing both children and dogs to move about safely while adults relax and enjoy their own time with complete peace of mind.

2. Shark® FlexBreeze Cordless Circulator Fan (FA222J)

【Facilities : Vision Glamping Resort Yamanakako】

A new cordless air circulator fan designed for effortless portability.

Simply detach the fan from the stand with one touch and unfold the four legs to use it as a compact fan. Its versatile design makes it ideal for use in a wide range of locations and situations.

At Vision Glamping Resort Yamanakako, the fan is installed in the reception area to provide a refreshing breeze and help guests cool down upon arrival.

■ **A new way to spend summer through “Climate-adaptive travel” at two distinct facilities**

【Vision Glamping Resort Yamanakako】

- Go all in on the sauna and campfire—Come back to cool comfort -

Each standalone private villa features a cold plunge filled with Mt. Fuji spring water, a private tent sauna, and an open-air bath. After working up a sweat in the sauna or around the campfire in your private outdoor space, retreat to your dome tent and enjoy panoramic views of Mt. Fuji through fully opened curtains. The combination of air conditioning and the Shark® tower fan delivers 360-degree airflow, quickly cooling your heated body. Guests can enjoy a luxurious moment, embracing the gentle breeze in the tranquility of nature.

【Bihada no Yu Koshikano Onsen】

- The ultimate cool comfort after the healing warmth of natural hot springs and the sauna -

Each guest room features a private bath with continuously flowing natural hot spring water, allowing guests to enjoy a relaxing soak anytime, 24 hours a day, in complete privacy. After warming yourself to the core in the sauna or the skin-beautifying hot spring, step indoors and transition seamlessly into refreshing, cool comfort. After your bath, the gentle breeze from the Shark® fan pleasantly cools your body, easing you into a deeper state of relaxation.

■ All-inclusive comfort with no additional cost

Vision Glamping Resort Yamanakako and Koshikano Onsen feature an all-inclusive or equally comprehensive service model, with beverages and a wide range of on-site amenities included in the standard accommodation rate. The Shark® products are available to all guests at no additional cost.

This summer, please discover a new way to enjoy the outdoors with your family and your pet, surrounded by exceptional comfort and refreshing coolness.
