Notice Regarding Revision of Year-End Dividend Forecast for the Fiscal Year Ending November 30, 2025
(Dividend Increase)

MORITO Co., Ltd. (the “Company”) hereby announces that its Board of Directors, at a meeting held today, resolved to revise the year-end dividend forecast for the fiscal year ending November 30, 2025, which was announced on July 11, 2025, as follows.

Revision of Dividend Forecast

(1) Revision of year-end dividend forecast for the fiscal year ending November 30, 2025

	Annual dividend		
	End of Q2	End of the Period	Total
	Yen	Yen	Yen
Previous Forecast (Announced on July 11, 2025)		36.00	69.00
Revised Forecast		37.00	70.00
Results for the Current Period	33.00		
Results for the Previous Period (Ended November 30, 2024)	29.00	34.00	63.00

(2) Reason for revision

The Company considers the return of profits to shareholders a crucial management priority. To address this, it has established three basic dividend policies, as described below.

- Realize stable and continuous dividend payments
- Standard of a dividend on equity (DOE) ratio of 4.0% (on a consolidated basis)
- Dividend payout ratio of 50% or more on a consolidated basis in relation to profit attributable to owners of parent, depending on business performance and other factors

Based on the assumption that we will adhere to these basic policies, and after comprehensively considering factors such as the Company’s financial situation and asset outlook, we have decided to pay a year-end dividend forecast of 37 yen per share for the fiscal year ending November 30, 2025. This makes the annual dividend forecast 70 yen per share, which is an increase of 1 yen compared to the previous forecast. As a result, the consolidated dividend on equity ratio (DOE) is expected to be 4.6%.

The Company remains committed to prioritizing the return of profits to shareholders through continuous dividend payments, aligning with its Basic Dividend Policy. We would appreciate the support and understanding of our shareholders regarding this change.
